

Northern Virginia Data Center (VA-6)

Situated on an 142-acre highly secure data center campus, VA-6 is one of nine planned data centers which will provide 2,100,000 ft² of highly efficient green colocation space for enterprises, federal agencies, hyperscale clouds and more. VA-6, to be delivered in Q3 2025, will offer 230,000 gross ft² of space and 32 MW of renewable power in the heart of the world's largest data center ecosystem. Our Manassas campus offers tax and power savings compared to Ashburn and exceptional levels of energy efficiency as well as a diverse and accessible ecosystem of cloud, network and other service providers.

“IRON MOUNTAIN's physical site security, quality of service, customer support, and heritage in managing confidential data, allows NEC[®] to position our sap hosting solution as a new level of cloud service for sap[®] public sector clients.”

NEC

Why choose VA-6?

- > **Scale**
Swift expansion route to support hyper-scale infrastructure with world-leading compliance and connectivity
- > **Efficiency**
High-density configurations and excellent energy efficiency with 100% green power.
- > **Savings**
Prince William County location offers better tax incentives and lower power costs than Ashburn.

Northern Virginia

Data Center (VA-6)

Whether you are hyperscale cloud looking for a large deployment or a government organization looking for highly compliant, highly secure data center solutions, VA-6 can provide the space, standards and power configurations you need.

Standards

- > 30+ years of colocation excellence
- > The most comprehensive compliance program in the business
- > The only provider to comply with ISO27001 (info sec) ISO 50001 (energy) ISO14001 (environment) and ISO9001 (quality management) worldwide

Services

- > Smart Hands
- > Migration
- > Cross Connects
- > IP Transit
- > Metro Wave
- > Peering
- > Cloud On-Ramp

Sustainability

- > 100% green power
- > Ultra-efficient operations
- > Award-winning customer carbon credits solution

Interconnection

- > Carrier and cloud-neutral for a thriving ecosystem
- > All major cloud providers, SDNs, CDNs, IXs and global tier 1 networks
- > Huge range of global and regional networks
- > Hundreds of ISPs and MSPs

Quick Reference Guide for VA-6

Campus	Data Center	Interconnection	Compliance
Prince William County	230,000 ft ² / 32 MW	Carrier-neutral	NIST 800-53
Manassas, VA	Data halls: 2 x 23,255 ft ² , 2 x 23,070 ft ²	Cloud-neutral	FISMA HIGH
142 acres	Block N+1 redundancy	20+ carriers on-site	FedRAMP
Plan: 9 data centers	Highly secure facility, parking	On-site access to Megaport®	SOC 2 Type II, SOC 3
2,100,000 ft ² /280 MW	A/B underground feeds	Metro access to AWS®, Azure®	PCI-DSS
Utility: NOVEC	Offices, conf rooms, break room	WAN connectivity options	HIPAA
Dedicated substation	High efficiency air cooled chiller plant	Redundant MMRs, fiber PoE	ISO 9001, 14001, 22301, 27001, 50001

About Iron Mountain Data Centers

Iron Mountain Data Centers operates a global colocation platform that enables customers to build tailored, sustainable, carrier and cloud-neutral data solutions. As a proud part of Iron Mountain Inc., a world leader in the secure management of data and assets trusted by 95% of the Fortune 1000, we are uniquely positioned to protect, connect and activate high-value customer data. We lead the data center industry in highly regulated compliance, environmental sustainability, physical security and business continuity. We collaborate with our 1,300+ customers in order to build and support their long-term digital transformations within our 4M+ SF global footprint spanning 3 continents. For more information, visit www.ironmountain.com/data-centers.
