SPECIFICATIONS

MATERIAL

The vinyl and extruded aluminum window profiles meet the AAMA 303-97 performance requirements.

WINDOW FRAME

Vinyl:

All frames are assembled using a fusion welding technology for strength and durability. The depth of the frame is 3 1/4" (83 mm), and the thickness of the outer wall 0.065 inch. The frames are provided with groove for attaching external moldings and come with a built-in adaptor for 1/2-3/4 inch. Closed frame version is also available for replacement.

Aluminum:

The frame cladding is made of extruded aluminum and coated with a baked paint. A nailing fin is integrated into the frame for superior sealing. The mechanical connection with corner injection provides good rigidity and allows application of sealant. The double seal provides optimum sealing.

SASH

Vinyl:

The sash has a thickness of 2 1/4" (nominal) or (54.61 mm), it is assembled using a fusion welding technology for strength and durability.

Aluminum:

The aluminum sash cladding is screwed for easy replacement of parts. Limited points of contact between aluminum and pvc minimize thermal transmittance. The mechanical assembly with double corners on all 4 corners results in a very strong sash.

GLAZING

Sealed unit, 3/4" (19 mm) consists of two panes of glass sealed around an interlayer insulation with double sealing. All insulating glass meet the performance requirements of the standard under IGMAC CAN/CGSB-12.8-97.

GLAZING OPTIONS

The Sealed unit, 3/4 in. (19 mm) is available in clear glass, low-emissivity (low-E) with Argon, tinted or frosted, or any other type of architectural glass upon request. All glasses are available tempered. Sealed unit up to 7/8" is available in option also is a triple glass of 1 1/4" sealed unit.

WEATHERSTRIPPING

Weatherstripping with fin brush is applied around the perimeter of the sash. The double row of weatherstripping coextruded meets AAMA 701 or AAMA 702. A weatherstrip is applied to the entire perimeter of the frame.

HARDWARE

Awning windows have a double lever operator with anticorrosion coating and a multipoint locking system. The finish of the operators is a hardware brand offered by Truth with a folding handle.

WINDOW SCREEN

The insect screen is made in fiberglass (tread 18 x 16) installed in a folded aluminum painted frame, adjusted within the window. The screens are designed to bring air and light while keeping insects out, not to prevent a person or object falling through an open window. For more information on screens or other security devices, contact your retailer of building materials locally.

GRILLES

Simulated divided lite (SDL) made of vinyl inside and outside aluminum, 7/8 in. (23 mm) and 1 3/8 (35 mm) or SDL vinyl inside and aluminum outside 2 5/16 inch (59 mm) fixed permanently on each side of the insulating pane with or without spacer between the glass panes.

Sealed grilles (grilles between the glass) - Georgian style, tubular, square or flat mounted between the glass panes suspended within the empty space.

INSTALLATION

Install vinyl windows in accordance with JELD-WEN installation method. Visit www.jeld-wen.com/resources for instructions.

PERFORMANCE

CSA certified - classified and labeled in accordance with CSA certification program NFRC Certified - (classified and labeled in accordance with NFRC certification program). EnergyStar certified - (classified and labeled according to EnergyStar certification program).

MULTIPLE ASSEMBLIES

All hybrid casement windows may be mullered above, below, or beside other hybrid casement windows, or other hybrid window products. Factory assembled mulls are limited in height (99"), width (150"), and a total area (60 square feet).

HANDING AND OPERATION

**LEFT
HAND**

**RIGHT
HAND**

CASEMENT UNIT HANDING:
UNIT HANDING IS DEFINED (FROM
THE EXTERIOR) AS THE
DIRECTION THE SASH OPENS.

ELEVATION DRAWING GUIDE

Height:
 Rough Opening 54 3/4" - 1391mm
 Frame Size 54" - 1372mm
 Glass Size 47 5/8" - 1210mm

Width:
 Rough Opening 27 3/4" - 705mm
 Frame Size 27" - 686mm
 Glass Size 20 5/8" - 524mm

Window meets Egress as per Canadian NBC

OUTSIDE OF FRAME

VK1T027054

BOOK CODE

'VK' INDICATES DF3103 HYBRID CASEMENT SERIES

THE NUMBER INDICATES THE NUMBER OF UNITS MULLED TOGETHER

'T' INDICATES DUAL GLAZED PRODUCT

THE NEXT THREE NUMBERS INDICATE THE UNIT HEIGHT IN INCHES

THE FIRST THREE NUMBERS INDICATE THE UNIT WIDTH IN INCHES

GENERAL CASEMENT NOTES

1. ALL HYBRID CASMENT UNITS ARE AVAILABLE AS OPERATING OR STATIONARY UNITS.
2. UNIT ELEVATIONS ARE SHOWN WITHOUT EXTERIOR TRIM.

ELEVATION SYMBOL LEGEND:

- E** BASIC UNIT CLEAR OPENING EXCEEDS 15" IN WIDTH, 15" IN HEIGHT & A MINIMUM OF 3.77 SQ. FT. UNOBSTRUCTED OPENING BASED ON CANADIAN NBC
- E*** BASIC UNIT CLEAR OPENING REQUIRES EGRESS HINGES TO EXCEED 15" IN WIDTH, 15" IN HEIGHT & A MINIMUM, OF 3.77 SQ. FT. UNOBSTRUCTED OPENING BASED ON CANADIAN NBC
