Made according to:

BEK no. 811 of 27/06/2024 Executive Order on quality requirements for environmental measurements

The sample has been taken in accordance with the current sampling plan / agreement.

Approved by:

Gitte Pedersen
Laborant

Designations:

+/- expanded relative uncertainty in% with coverage factor 2. Results at the detection limit level are subject to a relatively greater measurement uncertainty than is generally the case.

Symbolizes that all components included in the sum in question have a concentration less than the detection limit of the individual component.
