Højvang Laboratorier A/S refuses to comment on attitudes and interpretations.

Analysis results are stated in the report with 2 significant digits unless otherwise agreed. When comparing with any limit and / or requirement value, the analysis result is used in the report.

Højvang Laboratorier A/S disclaims any responsibility in connection with the use of the stated minimum and maximum values or the use of the classifications made.

Made according to:

BEK no. 811 of 27/06/2024 Executive Order on quality requirements for environmental measurements

The sample has been taken in accordance with the current sampling plan / agreement.

**Approved by:**

Heidi Jensen  
Laborant

**Designations:**

+/- expanded relative uncertainty in% with coverage factor 2. Results at the detection limit level are subject to a relatively greater measurement uncertainty than is generally the case.

# Symbolizes that all components included in the sum in question have a concentration less than the detection limit of the individual component.
