Threat Exposure Management

Turning Exposure Visibility into Action

Kroll helps organizations operationalize **CrowdStrike Falcon Exposure Management** and **Falcon for IT** through human-led, AI-enabled remediation.

AI-Driven Vulnerability Discovery Demands a Swift, Systemic Response

Advancements in frontier AI models are rapidly uncovering dormant vulnerabilities across technologies widely deployed in enterprise environments. AI assisted discovery increases both the speed and volume of findings, shrinking the window between vulnerability identification, weaponization and real world exploitation.

This shift exposes not just individual weaknesses, but systemic risk across interconnected environments, accelerating the need for threat informed prioritization and coordinated remediation, a challenge Kroll addresses in collaboration with **CrowdStrike's Project QuiltWorks**.

Key Insights on Threat Exposure

- **36% of organizations acknowledge gaps in how threats are prioritized**, with differing risk tolerance (51%) cited as the leading cause[1]
- The average "breakout time" - the speed at which an attacker moves from an initial compromised system to other systems within a network dropped to just **29 minutes in 2025**[2]

Operationalizing CrowdStrike Exposure Intelligence Across the Enterprise

Assess and Test

Assess exposure across the enterprise and validate how individual weaknesses combine to create real attack paths

CrowdStrike enables: Observability through Falcon Exposure Management and Falcon for IT

Kroll delivers: Expert led exposure assessment, human-led attack path validation and AI-infused exploitability testing

Advise

Prioritize exposure using threat intelligence, attack paths, privilege impact and business context

CrowdStrike enables: Threat intelligence and prioritization signals

Kroll delivers: Risk informed, threat intelligence led prioritization, business aligned guidance, executive reporting

Implement

Operationalize remediation through workflows, SLAs, escalation paths and orchestration

CrowdStrike enables: Remediation workflows and automation

Kroll delivers: Operating model design, remediation governance, emergency response procedures

Defend and Resolve

Validate closure of attack paths and continuously adapt as threats and environments evolve

CrowdStrike enables: Continuous Threat Exposure Management (CTEM) and automated remediation

Kroll delivers: Human-led closure validation, remediation operations, continuous improvement

Services That Turn Platform Capability into Risk Reduction

By operationalizing CrowdStrike exposure intelligence through these services, Kroll enables measurable, durable risk reduction.

Platform Activation and Configuration
Deploy core Falcon Exposure Management and Falcon for IT capabilities; define scope, configure roles, asset groups, dashboards and reporting

Asset Context and Workflow Integration
Connect asset inventory, ownership, business criticality and ticketing workflows to improve prioritization and actionability

Offensive security testing to assess exploitability and validate closure
Adversary-informed validation of exposure risk and remediation effectiveness

Prioritization and Remediation Orchestration
Tune prioritization logic, establish remediation queues, define SLAs and implement routing, escalation, exception workflows and emergency response playbooks

Hardening and Patch Enablement
Operationalize configuration assessment, baseline checks, drift identification and approved remediation actions across managed systems

Attack Path Reduction and Validation
Hybrid remediation on exposures most likely to enable attacker progression and validate closure on issues that materially reduce risk

Why Kroll

Kroll delivers the expertise, scale and operational discipline required to turn CrowdStrike exposure intelligence into **real-world risk reduction**.

- Deep expertise across vulnerability management, identity, application security, red teaming and AI security
- Proven delivery inside live remediation and incident response programs
- Independent, practitioner led services with no tool bias
- Flexible delivery from implementation through ongoing operation

Key Outcomes

- Faster discovery and prioritization
- Remediation within defined SLAs
- Reduced attack paths
- Improved patching cadence
- Clear, executive ready reporting

Kroll is a Leader in Cyber and Data Resilience

World's largest incident response provider, handling **thousands** of cyber incidents annually

140k+ hours of penetration testing and red teaming annually

Trusted by leading **enterprises, insurers and regulated organizations** worldwide

Experience from **Govt. & Law Enforcement, Industry & Consulting** backgrounds

EUROPOL

700+ experts across 19 countries

100+ certifications

CISM CREST ISO 27001

Expertise in **AI, IAM, Cloud, Data Analytics, OT Security** and **Cyber Risk**

700k+ actively monitored endpoints

Rated as an **industry leader**

FORRESTER 2024 Computing Security Awards WINNER

computing Security Excellence Awards 2023 WINNER

SC 2023 awards WINNER

About Kroll

As the leading independent provider of financial and risk advisory solutions, Kroll leverages our unique insights, data and technology to help clients stay ahead of complex demands. Kroll's global team continues the firm's nearly 100-year history of trusted expertise spanning risk, governance, transactions and valuation. Our advanced solutions and intelligence provide clients the foresight they need to create an enduring competitive advantage. At Kroll, our values define who we are and how we partner with clients and communities. Learn more at Kroll.com.

M&A advisory, capital raising and secondary market advisory services in the United States are provided by Kroll Securities, LLC (member FINRA/SIPC). M&A advisory, capital raising and secondary market advisory services in the United Kingdom are provided by Kroll Securities Ltd., which is authorized and regulated by the Financial Conduct Authority (FCA). Valuation Advisory Services in India are provided by Kroll Advisory Private Limited (formerly, Duff & Phelps India Private Limited), under a category 1 merchant banker license issued by the Securities and Exchange Board of India.
