## DEFINITIONS

| <b>Cost</b>                   | <b>Narrative</b>   |
|-------------------------------|--|
| Investment Advisory Fee       | The Investment Advisory Fee covers the cost of client servicing, the cost of managing and running a fund, and the operational costs of running a fund management company, it is charged at a share class level, and is paid to Liontrust by the relevant share class.                            |
| Fixed Operating Fee ("OF")    | This is the set charge that a fund pays to Liontrust in relation to the various costs associated with the operation and administration of a fund, such as servicing, and oversight of the fund, including legal and audit fees and other general expenses, it is charged at a share class level. |
| Volume Discount ("VD")        | The Volume Discount is a discount applied to the OF in order to pass on savings which may be made due to economies of scale for funds which have significant levels of assets. This is applied at share class level where a fund size reaches predetermined thresholds.                          |
| Underlying Fund Fees          | For funds that invest in other funds, these are the associated ongoing costs of the funds invested in. This figure includes the ongoing costs of open ended and closed ended vehicles.   |
| Ongoing Charge Figure ("OCF") | The OCF represents the costs of running a fund over a year, comprised of the Investment Advisory Fee, OF (including the VD where applicable), and Underlying Fund Fees where applicable.   |
