Contents

Exposure to positive sustainability investment trends	3–4
Alignment with UN Sustainable Development Goals	5
Assessment of how sustainable companies are: Sustainability Matrix Rating	6
Climate change: portfolio data on carbon, solutions and fossil fuels	7
Weight of holdings owning fossil fuels	8
Fund holdings	9–38
Additional ESG metrics	39–41

Exposure to positive sustainability investment trends

We look to invest in companies having a positive impact on our economy by making it either cleaner, healthier or safer. Exposure to 21 of our 22 Sustainable investment themes is shown below. For more detail on the sustainable themes, see liontrust.co.uk/sustainable

Exposure to sustainable themes

Source: Liontrust / Factset, 30 June 2024

Theme	
7.0%	Improving the efficiency of energy use
5.2%	Improving the resource efficiency of industrial and agricultural processes
4.1%	Improving the management of water
3.3%	Increasing electricity generation from renewable sources
2.0%	Delivering a circular materials economy
0.7%	Making transportation more efficient or safer
5.2%	Enabling innovation in healthcare
4.4%	Connecting people
3.6%	Building better cities
2.9%	Enabling healthier lifestyles
2.4%	Providing affordable healthcare
2.2%	Providing education
1.5%	Encouraging sustainable leisure
8.9%	Financing housing
5.4%	Saving for the future
5.3%	Enabling SMEs
4.5%	Enhancing digital security
3.5%	Transparency in financial markets
3.1%	Better monitoring of supply chains and quality control
3.1%	Leading ESG management
2.0%	Insuring a sustainable economy
1.0%	Portfolio construction/diversification
16.8%	Government bonds
2.0%	Cash & derivatives

Exposure to positive sustainability investment trends

Sustainable investment themes: how much of business is exposed

This analysis shows what proportion of companies held in the fund is exposed to the Sustainable investment themes: 74.9% of the fund is invested in companies that are strongly exposed to our themes

(which means more than 50% of the business's revenues); a further 5.2% of the fund is invested in companies that are moderately exposed to our themes, which means between 25% and 50% of revenues.

Source: Liontrust / Factset, 30 June 2024. *Average weighted exposure to themes from companies in the fund.

Alignment with UN Sustainable Development Goals

This analysis shows how the Sustainable investment themes are linked to the United Nations’ Sustainable Development Goals (SDGs).

All of the Sustainable investment themes are linked to SDGs and the underlying Key Performance Indicator they relate to have been identified in the SDG text.

The fund has most exposure to SDG 8: Decent work and economic growth (25.0%); SDG 9: Industry, innovation and infrastructure (19.8%) and SDG 3: Good health and well-being (10.6%).

The fund is exposed to nine of the 17 UN SDGs.

Sustainable investment themes mapped to UN Sustainable Development Goals (% of fund exposure)

Assessment of how sustainable companies are:

Sustainability Matrix Rating

We assess every company using our proprietary Sustainability Matrix Rating, which measures how sustainable the products and services are as well as how well they manage the material environmental, social and governance (ESG) matters related to their business.

The weighted average Sustainability Matrix rating for the fund is B2 (marked in red in the figure below). This shows the fund is invested in companies whose products and services are more sustainable and whose management of ESG aspects of their business is better than the market it invests in. Companies which are rated in the grey area of the Sustainability Matrix (worse than C3) are not eligible for this fund.

Source: Liontrust / Factset, 30 June 2024.

Climate change: portfolio data on carbon, solutions and fossil fuels

Carbon emissions of fund compared to conventional benchmark

This analysis shows the investments in the fund emit 78.8% less carbon (tCO2e/\$m invested) than the market it invests in. This independent analysis includes direct emissions forming scope 1 and scope 2 emissions only*.

Source: MSCI Climate Risk/Liontrust as at 30 June 2024: tCO2e/\$m invested using weighted single-strategy funds as proxy for multi-asset fund and compared to same asset allocation in conventional benchmark. Carbon emissions data is available for 86.4% of the fund and 80.9% of the asset-weighted conventional benchmark. *Scope 1 emissions are direct greenhouse (GHG) emissions that occur from sources controlled or owned by an organisation (associated with fuel combustion in boilers, furnaces, vehicles and so on). Scope 2 emissions are indirect GHG emissions associated with the purchase of electricity, steam, heat, or cooling. Scope 3 (all indirect emissions, not included in scope 2, that occur in the value chain of the reporting company) is important but not currently available in a consistent data set with enough coverage to be included in this independent analysis.

Companies offering clean technology solutions

This analysis shows that the fund holds 30.1% of companies that MSCI has determined are providing clean technology solutions.

Source: MSCI Carbon Analytics / Liontrust as at 30 June 2024.

Weight of holdings owning fossil fuels

Weight of companies owning fossil fuel reserves

This analysis shows the fund has very low exposure to companies that own fossil fuel reserves: 0% exposure to any fossil fuel reserves; 0% exposure to thermal coal reserves; 0% exposure to natural gas reserves; and 0% exposure to oil reserves.

Based on the third-party available data (which covers 86.4% of the fund's holdings and 80.9% of the benchmark), the fund holds no exposure to fossil fuel reserves. Our own additional analysis concludes that we are not holding companies with significant exposure to fossil fuel reserves in any companies not covered by this data set. Fossil fuel reserves include coal, gas, and oil reserves.

Source: MSCI Carbon Analytics / Liontrust as at 30 June 2024: using weighted single-strategy funds as proxy for multi-asset fund and compared to same asset allocation into conventional benchmark.

All Fund holdings

Alphabetical list showing all holdings in the fund along with their sector, our Sustainability Matrix Rating and Sustainable investment theme.

Equity

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
3i Group plc	Financials	C1	Enabling SMEs	3i is a private equity company that invests predominantly in retail, infrastructure, healthcare, technology and industrial. They have strong responsible investment policies and firm exclusion on no-go areas. It is also the owner of Action Discount Retail which has leading policies on product sourcing and environmental performance in its operations.
Admiral Group plc	Financials	B2	Insuring a sustainable economy	Admiral provides motor and home insurance, primarily in the UK and other parts of Europe. Insurance provides a financial safety net to protect against damage. A car or house can be some of the biggest investments that an individual might make, and therefore being able to spread risk of damage is an important service.
Advanced Drainage Systems, Inc.	Industrials	B2	Delivering a circular materials economy	Advanced Drainage Solutions is focused on developing solutions for water management, while keeping plastic out of landfills. It is a leading manufacturer of products that capture and store water preventing excessive stormwater runoff and products that improve water quality, keeping waterways safe from pollution.
Adyen NV	Financials	B1	Enhancing digital security	Adyen makes transacting online safer and easier. The company has one platform and is focused purely on organic growth. Returns are best in class and the culture is fantastic.
Agilent Technologies, Inc.	Health Care	A1	Better monitoring of supply chains and quality control	Agilent is a leading test and measurement company. Its products help us ensure the air we breathe, the water we drink and the food we eat isn't affected by dangerous impurities. It also has a growing diagnostics business which enables innovation in healthcare.
AJ Bell Plc	Financials	B1	Saving for the future	AJ Bell provides a low cost, easy to use investment platform for individuals and financial advisers to manage their investments and savings. Investment platforms such as AJ Bell have democratised the industry, which previously was only accessible for the wealthy.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Alcon AG	Health Care	A2	Enabling healthier lifestyles	Alcon is an American-Swiss medical device company specialising in design and manufacture of intraocular lenses, consumables used in ophthalmic surgery and consumer contact lenses. It is the dominant player within implantable lenses and surgical consumables with 37% and 58% market share respectively, and the number 2 player in contact lenses with 22% market share.
Alphabet Inc. Class C	Communication Services	B3	Providing education	Alphabet is an unusual case, 82% of revenues come from advertising, which would normally be C rated. However, our view is that this powers their core Search business and YouTube, which most users do not pay for but receive the benefits of having the world's information indexed. YouTube is becoming an increasingly important tool for education with 77% of users claiming to have used YouTube to learn a new skill in 2020.
American Tower Corporation	Real Estate	B2	Connecting people	American Tower owns, operates and develops wireless communications and broadcast towers worldwide, renting its portfolio over 220k communications sites to mobile network operators and space and connectivity in its newly acquired US data centres to a wide client base. AMT benefits from growth in communications: 5G, small cells and IoT will increase demand for telecoms infrastructure, and network densification is key.
ANSYS, Inc.	Information Technology	B2	Improving the resource efficiency of industrial and agricultural processes	Simulation software is the process of modelling a real-world phenomenon with a set of mathematical formulae. Essentially, it is a computer programme that allows the user to observe an operation through simulation without physically performing that operation. The virtual testing and monitoring enables higher safety and quality standards in the design, development and maintenance of our products and Ansys is the global leader in complex multi-physics real-world simulations.
Aquila European Renewables PLC Registered	Energy	A2	Increasing electricity generation from renewable sources	Aquila European Renewables fund is a sustainable infrastructure fund which invests in renewable energy assets (wind, solar and existing small hydro concessions) in Europe (outside of the UK) and pays out a dividend of c.5% yield. These types of fund play a crucial role in owning renewable assets which are displacing higher carbon alternatives off the electricity grid helping us move towards an ultra-low carbon economy. This frees up capital for the developers to recycle and increase renewable electricity further in the energy transition.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Ashtead Group plc	Industrials	B3	Delivering a circular materials economy	Ashtead is the embodiment of the sharing economy, renting out industrial, commercial and general equipment across the US, UK and Canada. It maximises the utilisation of equipment that would otherwise sit idle for long periods, and offers assurance that equipment is serviced and maintained properly and is reliable. In doing so, it allows the businesses it rents to, to concentrate on their core competencies and to reduce their inventories of capital equipment.
ASM International N.V.	Information Technology	B2	Improving the efficiency of energy use	ASM is the market leader in Atomic Layer Deposition (ALD) manufacturing tools for the semiconductor industry. ALD is a critical process for customers to produce chips in a Gate-All-Around (GAA) architecture, which enables an improvement in energy efficiency of approximately 25%.
ASML Holding NV	Information Technology	B1	Improving the efficiency of energy use	ASML remains at the forefront of improving semiconductor fabrication through EUV development and holistic lithography. Smaller process nodes means more chips per wafer in manufacture and smaller, cheaper, more reliable, more energy efficient and more powerful end products. These advances in semiconductor manufacturing underpin improvements in Logic Chips and the ever-greater processing power of our computers, which in turn drives almost every aspect of our technological, scientific and commercial breakthroughs.
AstraZeneca PLC	Health Care	A2	Enabling innovation in healthcare	AstraZeneca is a global biopharmaceutical company of British-Swedish origin, with a broad portfolio of treatments across major therapeutic areas. The core focus areas include underserved diseases such as oncology (cancer treatments), cardiovascular, renal and metabolism (heart and kidney diseases, diabetes), respiratory, immunology, and inflammation. According to the WHO, 1 in 2 people will develop cancer in their lifetime, highlighting the urgency of developing curative solutions. Astra's dominance lies within Oncology, which takes the lion's share of revenues (40% FY23) and margins. Cancer is the 2nd leading cause of death globally. The global burden of cancer is expected to grow, with over 30m newly diagnosed patients estimated by 2040.
Atrato Onsite Energy Plc	Financials	A2	Increasing electricity generation from renewable sources	Atrato Onsite Energy is a renewable energy infrastructure fund that installs solar modules principally on industrial use roofs in the UK. They contract the sale of electricity from this to the willing occupier. The result is more lower carbon electricity generated and lower power price costs for their customers and dividend payments for investors.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Autodesk, Inc.	Information Technology	B1	Improving the resource efficiency of industrial and agricultural processes	Autodesk provides software for construction, manufacturing and entertainment industries. Its products effectively lead the digitisation of these industries, which in turn directly reduces resource wastage, wasted time and watered costs. The Building Information Management (BIM) secular trend in construction is being driven by Autodesk's market-leading products.
Avanza Bank Holding AB	Financials	B2	Saving for the future	Avanza is an investment platform helping people save for their retirement in a cost effective manner in Sweden. They are particularly proactive on sustainable investment and in promoting inclusion of women on their platform, with targets to increase female participation further.
Bright Horizons Family Solutions, Inc.	Consumer Discretionary	A2	Providing education	Bright Horizons provides high-quality educational services, chiefly for 0-4 year olds, that are paid for by the employees but subsidised as part of benefits. This gives the opportunity for full-time working households to continue their careers, while ensuring their children are in the best possible setting.
Brown & Brown, Inc.	Financials	B4	Insuring a sustainable economy	Brown & Brown is the 5th largest US insurance broker, helping clients throughout the insurance lifecycle, from selecting the appropriate level of protection, all the way through to the claims process. B&B also help to place niche risks with specialist insurers such as wind and flood insurance that are associated with climate change, or help insurers to price said risk when they do not have the expertise.
Cadence Design Systems, Inc.	Information Technology	B1	Improving the efficiency of energy use	Cadence provides EDA, technology that designs and optimises semiconductor chips. Its technology facilitates innovation behind many of our themes related to the digitalisation of the global economy. Semi-conductor technologies are the back bone of key technological transitions, such as Electric Vehicles and Renewable Energy, and Cadence's tools are crucial in ensuring more energy efficient and powerful semi-conductor chips.
Canadian Solar Infrastructure Fund. Inc.	Infrastructure	A3	Increasing electricity generation from renewable sources	Canadian Solar Infrastructure fund is the leading Japanese solar infrastructure fund. It owns and operates large scale Solar projects, which were initiated post the Japanese earthquake in 2011, to replace nuclear capacity in Japan. It is providing clean and safe energy and displacing dangerous dirty sources of power, such as nuclear and oil.
Charles Schwab Corp	Financials	B3	Saving for the future	Schwab is ensuring investment products are available to a wide range of savers, and addressing the acute need to save for the future. The company uses its increasing scale to pass on lower costs to its customers.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Compass Group PLC	Consumer Discretionary	C1	Leading ESG management	Compass Group provides catering services globally; it serves 5.5 billion meals a year and employs 550k people across 50k client locations. We are holding the company for the way it manages its key Environmental, Social and Governance issues, which we believe are best in class and leads to superior growth and margin progression over the long run.
ConvaTec Group Plc	Health Care	A2	Enabling healthier lifestyles	Convatec manufacture medical devices for people living and managing chronic disease. Their mission is to pioneer trusted medical solutions to improve lives. Convatec's products improve the experiences of people living with chronic health issues through their medical devices. Convatec's customers are affected by certain cancers, diabetes, multiple sclerosis, spinal cord injury, Parkinson's, and Inflammatory Bowel Disease. Often end users have had life changing surgeries to deal with their disease or need to manage symptoms, which has a direct impact on their standards of living. Convatec's products help these patients manage their condition and maintain their quality of life.
Croda International Plc	Materials	B1	Improving the efficiency of energy use	Croda is a speciality chemical company based in Yorkshire. The company focuses on surface chemistry and its compounds help to increase energy and resource efficiency, reduce the use of toxic substances and improve the efficacy of pharmaceuticals.
DFS Furniture PLC	Consumer Discretionary	C1	Leading ESG management	DFS is the UK's largest furniture manufacturer and manufactures around one third of it's products. DFS has become the industry leader in environmental and social performance –the company is beginning to use their scale advantage to push for higher standards in raw material procurement, supply chain labour standards and customer experience. As a result of better managing the impacts from the business, this can lead to positive social and environmental outcomes. We believe this should also help support their market share gains (gaining market share by offering more sustainable products).
Downing Renewables & Infrastructure Trust Plc	Financials	A2	Increasing electricity generation from renewable sources	Downing Renewable and Infrastructure Trust is a fund that owns renewable electricity generation assets such as wind, solar, micro-hydro power, and plans to invest in Geothermal power. The assets are located in UK and Nordics (50% each is broad target). These types of fund play a crucial role in owning renewable assets which are displacing higher carbon alternatives off the electricity grid helping us move towards an ultra-low carbon economy. This frees up capital for the developers to recycle and increase renewable electricity further in the energy transition.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Ecolab Inc.	Materials	B1	Improving the management of water	Ecolab is the global leader in improving the management of water across the hospitality and industrial sectors.
Edwards Lifesciences Corporation	Health Care	A2	Enabling innovation in healthcare	Edwards Lifesciences develop and supplies patient-focused medical innovations for heart disease and critical care monitoring.
Experian PLC	Industrials	B2	Transparency in financial markets	Experian is a market leading global information services company, with credit information on 1.3 billion consumers and 163 million businesses across 45 countries. It's business-to-business division helps lenders and borrowers to access and distribute debt responsibly, by assisting to manage the risks of lending, identify and understand customers to predict and manage credit risk to make transactions safer. It's consumer services division helps individuals to access the financial services they need, and better understand their credit profile and financial position, supporting social and economic development and reducing financial exclusion.
Ferguson Plc	Industrials	B2	Building better cities	Ferguson provides sanitation equipment and infrastructure, water infrastructure equipment and extends the useful life of all this infrastructure in the built environment.
Greencoat UK Wind Plc	Utilities	A2	Increasing electricity generation from renewable sources	Greencoat UK Wind PLC is a sustainable infrastructure fund that owns and operates renewable energy electricity generation assets. These assets are split across 49 different projects, all of which are wind generation assets (56% onshore and 44% offshore) in UK. This fund plays a crucial role in owning renewable assets which are displacing higher carbon alternatives off the electricity grid helping us move towards an ultra-low carbon economy.
GSK plc	Health Care	A2	Providing affordable healthcare	GlaxoSmithKline is a large UK pharmaceutical conglomerate. It manufactures and markets branded pharmaceutical and vaccine therapeutics.
Gym Group Plc	Consumer Discretionary	A1	Enabling healthier lifestyles	Gym Group is the UK's second largest gym group targeting the low-cost end of the market. Its gyms have an average membership of around 5000, typically situated in less wealthy areas of the UK with a monthly rolling membership at just over £20 on average.

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Haleon PLC	Consumer Staples	B2	Enabling healthier lifestyles	Haleon is a global leader in personal healthcare and consumer health products, aiming to help individuals take responsibility of their own health in a convenient way before reaching the healthcare system. It serves people around the world in key categories like OTC pain killers, sensitive orthodontics, vitamin supplements and more. In 2023, Haleon empowered 41m people globally to better their everyday health.
Halma plc	Industrials	A1	Building better cities	Halma is a holding company for 45 distinct businesses in safety, environmental analysis, and healthcare. The Halma model is to acquire these niche businesses and enable them to grow through support around digital transformation, talent and culture, finance legal and risk, marketing and comms, or international expansion.
Helios Towers Plc	Communication Services	A2	Connecting people	Helios Towers owns and operates telecommunications towers and telecom infrastructure across Africa, supporting wider, more reliable access to the services and benefits of mobile connectivity in underserved markets.
Home REIT PLC	Real Estate	A5	Building better cities	Home REIT was set up to provide high quality housing to vulnerable groups, helping Local Authorities meet their obligations to provide housing to homeless people and those seeking shelter from abusive relationships. However it turned into a vehicle for fraudulent property transactions, negligence in the oversight of who was actually leasing their properties and an abandonment of the original well-founded intentions. Now it is being overseen by a new set of directors, and new investment management and is in winding up as it sells the remaining properties to an owner that can make better use of them - some but not all will be social housing providers.
Infineon Technologies AG	Information Technology	B1	Improving the efficiency of energy use	Infineon is a German company that produces efficient power management chips, which are used across the economy in electronics, particularly in computing and mobiles as well as autos and industrial automation. It is the largest player in power semi-conductors, which are key for electrification, so they are well positioned here.
Intertek Group plc	Industrials	B2	Better monitoring of supply chains and quality control	Intertek provides services from auditing and inspection, training, advisory, quality assurance and certification to a broad range of global companies as well as governments.
Intuit Inc.	Information Technology	B2	Enabling SMEs	Intuit provides accounting software to individuals, small businesses and the self employed, helping them manage their money, reduce their debt and file taxes.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Intuitive Surgical, Inc.	Health Care	A2	Enabling innovation in healthcare	Intuitive is committed to advancing patient care in surgery and other acute medical interventions. The company is focused on innovating to enable physicians and healthcare providers to improve the quality of and access to minimally invasive care.
IQVIA Holdings Inc	Health Care	A4	Providing affordable healthcare	IQVIA connects healthcare organisations and patients with data in an effective way to ensure faster decision making on healthcare outcomes. At its heart IQVIA is a people business. There are two ways it makes money; 1. Selecting and running clinical trials for its customers, 2. Obtaining and tidying medical data for its customers. The benefit of being good at the later, provides competitive advantage in the former.
JLEN Environmental Assets Group Limited GBP	Financials	B3	Increasing electricity generation from renewable sources	John Laing Environmental Assets forms part of our sustainable infrastructure portfolio. This fund invests in renewable energy and waste treatment facilities, principally in the UK, and pays a c.5% dividend from these cash-flows.
Keyence Corporation	Information Technology	B3	Better monitoring of supply chains and quality control	Keyence is the global leader in sensor and vision technology. Its products significantly reduce production errors and faults, reduce energy consumption and improve overall efficiency.
Kingspan Group Plc	Industrials	A3	Improving the efficiency of energy use	Kingspan products will help to decarbonise our economies by reducing the energy required to keep our buildings at the correct temperatures. 85% of their products provide superior insulation, up to twice as effective as mineral fibre. Green new deals will drive growth in demand for insulation in new build and refurbishment. In its operations the company is exceptional having reduced its carbon intensity by 54% since 2012. As a business it has also delivered exceptionally growing revenues 17% over 25 years. In terms of impact their sales in 2022 will save 173mt CO2 [UK emissions are 354mt CO2 for comparison!] We believe it will continue to grow strongly and they have learned from the revelations at the Grenfell Inquiry. [And they sponsor lions via the Born Free Foundation]
Legal & General Group Plc	Financials	B1	Saving for the future	Legal and General manages capital and associated risks in order to provide customers with pension income and long-term savings. It benefits from the rise in defined contribution pensions and the de-risking of workplace institutional pensions. They are a beneficiary of the Saving for the future theme, helping individuals to provide for their retirement in an efficient and cost-effective way.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
London Stock Exchange Group plc	Financials	B1	Transparency in financial markets	LSEG reduces risk in the financial system by acting as an independent central counterparty to facilitate trades. Furthermore, companies that are listed on exchanged are held to higher standards of financial transparency, which increases transparency in financial markets. The combination of Post Trade and Capital Markets segment makes up 34% of revenues. In the largest Data & Analytics segment, LSEG provides tools to investors that enable them to make informed decisions about managing risk. LSEG's most significant impact is within the Risk Intelligence business, making up 6% of sales. Tools such as WorldCheck and GLACT are used in financial crime prevention like terrorist financing and money laundering, as well as identifying potential fraud.
Masimo Corporation	Health Care	B4	Providing affordable healthcare	Masimo's focus is patient safety. Their development of products for non-invasive patient monitoring helps provides better quality of therapy, reduces hospital errors and ultimately benefits patients, providers and payers with better outcomes and reduced overall costs. Two thirds of revenues come from the world's most accurate pulse oximetry technology, which is exposed to our theme of Enabling innovation in healthcare.
Microsoft Corporation	Information Technology	B1	Improving the resource efficiency of industrial and agricultural processes	Microsoft's software and services empowers businesses all over the world to be more efficient. Through their cloud offering they reduce the environmental costs of businesses to run compute power and storage and through their cyber security products they protect businesses from being hacked. Finally, at a basic level, their MS Office suite helps businesses operate more efficiently and products such as Teams reduces the requirement for employees to travel and reduces friction within and between businesses.
Mobico Group PLC	Industrials	A2	Making transportation more efficient or safer	The company operates bus, coach and rail services, with an exceptional record on safety and progressive on environmental improvements. It helps to make cities less congested and air cleaner.
Molten Ventures PLC	Financials	B2	Enabling SMEs	Molten Ventures provides early-stage capital and backing for entrepreneurial companies linked to improving resource efficiency in industrial processes, increasing financial resilience, and innovation in healthcare. It tends to nurture companies until IPO or private sale at which point they realise their investment and recycle into new ventures.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Morningstar, Inc.	Financials	B2	Transparency in financial markets	Morningstar provides capital market participants with data, research, and tools to comply with regulations. By increasing the availability of information, market participants are better able to manage investment risk, and meet the standards that regulators implement in order to protect the end consumer. Sustainalytics and Pitchbook are both among the top providers of ESG and private markets information, which are emerging areas of significant growth and lower transparency than more mature segments of capital markets. DBRS (an NRSRO) and Morningstar Advisor Workstation are also strongly exposed to the theme of increasing transparency because both businesses help financial market participants to comply with SEC regulations. Morningstar is also exposed to our Saving for the Future theme, through its Morningstar Retirement, Investment Management and Index businesses.
Nasdaq, Inc.	Financials	B1	Transparency in financial markets	As an exchange, Nasdaq reduces counterparty risk in the financial system by acting as an independent facilitator of trades. However, Nasdaq has diversified away from revenues generated through trading, which now represents approximately just 20% of revenues today. Nasdaq is aligned to our theme of Enabling Transparency in Financial Market, which seeks to find companies that enable market participants and regulators greater insight into financial markets to manage risk. The company is a leading provider of solutions that help to detect financial crime and enable capital market surveillance by regulators within their Financial Technology segment, which we expect to generate over 40% of group revenues in 5 years. Nasdaq is also aligned with our Enabling Transparency in Financial markets theme through its Data & Listings business. Companies that are listed on stock exchanges face increased disclosure requirements, and as a Nationally Recognised Exchange by the SEC, Nasdaq have supervisory responsibilities over its listed companies.
NatWest Group Plc	Financials	B2	Financing housing	Natwest is a UK focused bank that operates both retail and commercial operations, providing consumer loans, asset and invoice finances, commercial and residential mortgages, credit cards, and financial planning services, as well as life insurance. Natwest's corporate lending is focused on the areas that we view as being most beneficial to sustained economic growth, namely SME lending, leasing and factoring and traditional retail banking. They aim to reduce carbon within their corporate loan book by at least 50% by 2030, and have potentially interesting initiatives around mortgages for energy efficiency improvements in housing.

Source: Liontrust / Factset, 30 June 2024

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
NVR, Inc.	Consumer Discretionary	B2	Building better cities	NVR builds high-quality homes that have better energy efficiency ratings than the average new homes built by competitors. The management team has built up a culture of focusing on efficiency and scale alongside excellent capital allocation. Similar to the UK, there is a large shortfall in the number of homes being built every year and so homebuilders play a crucial role in meeting that demand. 90% of the company's revenues come from building and selling homes, so the company has 90% exposure to the theme of Building Better Cities. The remaining 10% is from providing mortgages, so that segment is exposed to the theme of Financing housing.
Oxford BioMedica plc	Health Care	A3	Enabling innovation in healthcare	Oxford BioMedica is a leader in lentiviral vector innovation and manufacture. Lentiviral vectors are one of the core delivery mechanisms within the new healthcare therapy paradigm we have identified of Gene and Cell Therapies. We believe such therapies are set to revolutionise the healthcare landscape, as they have the potential to provide a one-off cure to underlying diseases.
Palo Alto Networks, Inc.	Information Technology	A2	Enhancing digital security	Palo Alto provides cyber security solutions for over 85,000 organisations. Its strategy is to build on the leading firewall product and move to subscription-based firewall and security as a service. This is increasingly based on consumption of data, meaning the market for security solutions will grow as data increases and more of this data is shifted into the cloud.
Paragon Banking Group PLC	Financials	B1	Financing housing	<p>Paragon is a specialist lender in the UK, providing finance for around 50,000 professional landlords and 40,000 SMEs. It also provides savings products for 260,000 individuals. It has a long history of low impairments and high service levels and its lending helps to support the sizeable private rental market and the development of new houses. It is innovative in providing lower interest rates on properties with better energy performance.</p> <p>It is aligned with the theme of Financing Housing</p>

All Fund holdings

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Paylocity Holding Corp.	Industrials	B3	Enabling SMEs	Paylocity is a leading Human Capital Management (HCM) software provider. Its products enables its customers, which are primarily small businesses, to manage the increasingly complex demands of managing its employees. It is the technology leader in an increasingly complex environment given the sheer scale of differing tax jurisdictions for employees across the US. It provides a pure Software as a Service (SAAS) offering, which builds on a single data entry for each employee, and connects to their sophisticated algorithm to solve tax and pay deductions efficiently. They also lead the industry in bolt on offerings which allow employers to connect with their employees, ensuring employee engagement and a more connected employee base. It contributes to a sustainable economy by ensuring businesses can pay their employees on time, and can accurately collect taxes. It is important for businesses to be able to engage with their employees, to enhance worker wellbeing. Its simple technology offering is also targeted towards Small and Medium Businesses (SME's), which ensure this potentially complex task is simplified and outsourced effectively. This ensures smaller business owners can focus on running their business and their customers, confident their employees are being paid and taxed correctly and on a timely basis. It also ensures employers have a much better understanding of employee feedback
PayPal Holdings, Inc.	Financials	B2	Enhancing digital security	90% of PayPal's revenues are centred on making transacting online safer and easier for both merchants and consumers. The two-sided network they have built up over the years helps them reduce fraud rates and improve conversion costs for merchants and consumers alike.
Porvair plc	Industrials	B2	Improving the resource efficiency of industrial and agricultural processes	Porvair is a specialist filtration, laboratory and environmental technology company. Its products help to monitor the quality of water and other substances; and keep critical systems safe from harmful contamination. It is aligned with the Better Monitoring of Supply Chains and Quality Control theme.
PRS REIT Plc	Real Estate	B2	Building better cities	PRS REIT has developed and now rents 5425 family homes for private rental in major UK towns and cities. They offer quality accommodation to people that cannot afford, or do not want to own, property directly. The emphasis is on developing communities sitting within other types of tenure (owner-occupier and affordable) and to regenerate and invest in under-served urban areas.
PTC Inc.	Information Technology	B2	Improving the resource efficiency of industrial and agricultural processes	PTC is an Industrial Design technology business for niche industrial end markets. It effectively supports the digitalisation of the manufacturing industry. This in turn helps reduce production errors and the associated materials waste and emissions.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Renewables Infrastructure Group Limited GBP Red.Shs	Utilities	A2	Increasing electricity generation from renewable sources	The Renewable Infrastructure Group (TRIG) is a sustainable infrastructure fund that owns and operates renewable energy electricity generation assets. These assets are 82% windfarms (onshore and offshore); 14% solar PV, and 4% flexible capacity (mostly battery storage). 57% of these assets are located in the UK, the remainder being in the EU. These renewable assets are expected to generate over 5GWh of renewable electricity per year, approximately equivalent to the electricity consumed by over 3 million households. This fund plays a crucial role in owning renewable assets which are displacing higher carbon alternatives off the electricity grid helping us move towards an ultra-low carbon economy.
Rentokil Initial plc	Industrials	B2	Enabling healthier lifestyles	Rentokil Initial helps to keep our urban environment clean and healthy by providing preventing pest infestations in businesses and homes and providing hygiene services. Pest control companies help to protect human health and property from damage from pests such as mosquitoes, termites, and vermin. The number and size of cities drives the demand for pest control because they provide ideal environments for breeding (warmer and lack of predators).
Ringkjoebing Landbobank A/S	Financials	B1	Enabling SMEs	Ringkjoebing Landbobank is one of the best-run banks in the industry, serving individuals and SMEs. Customer satisfaction rates are best in class and loan losses are non-existent. They focus on profitable and niche areas such as renewable infrastructure lending or dental practices and offer a full-service banking model.
Roche Holding Ltd Dividend Right Cert.	Health Care	A1	Enabling innovation in healthcare	Roche focusses on discovering and developing innovative pharmaceuticals and diagnostics.
Rotork plc	Industrials	B2	Better monitoring of supply chains and quality control	Rotork makes actuators and other flow control devices for use in oil and gas, chemical and industrial and water applications. These devices are critical to the safe operations of these critical industries.
Sage Group plc	Information Technology	B2	Enabling SMEs	Sage provides accounting, payroll and HR solutions to SMEs that include 25% of employees in the UK. At any one time SMEs in the UK are owed an average of £22,000 , so enabling them to keep track of their finances and meet regulatory standards increases the resilience of small businesses who are the anchor of the economy and employment.

Optivo Finance Plc	Financials	A1	Building better cities	One of the largest housing providers in the UK and a member of the G15 group of London's largest housing associations. Over 45,000 homes across London, the South East and the Midlands, giving 90,000 people somewhere affordable to call their own.
Orange Sa	Telecommunication Services	B2	Connecting people	Orange is the French incumbent telecommunications provider, operating mobile and fixed network services, but also has a wider global footprint including Africa, the Middle East and other European countries. It invests heavily in R&D aiming to expand its fiber and mobile networks, accelerating the transition towards digital infrastructure. Digital infrastructure is a critical part of a sustainable economy, promoting digital inclusion and reducing the digital divide across underserved segments of the population, improving quality of life for people in developed and emerging countries, enabling other sectors of the economy to function effectively (e.g. healthcare, education etc.) and helping customers to reduce carbon emissions and stay connected. It's presence in emerging markets provides crucial digital infrastructure in countries where reliable physical infrastructure is absent, enabling economic growth and reducing the digital divide.
Ørsted A/s	Utilities	A1	Increasing electricity generation from renewable sources	Ørsted A/S engages in the provision of renewable energy solutions and is the world's largest developer and operator of offshore wind. Ørsted has firmly embraced the energy transition, transforming its business over the last decade to becoming the global leader in offshore wind. They have installed 9.9GW of renewable energy capacity, expanding their geographical footprint, generating enough energy to power more than 15 million people's energy requirement, helping to avoid 11.3m tonnes of carbon emissions. In 2021 energy generated from renewable sources accounted for 89% of Ørsted's total energy generation and this is set to expand as they continue to invest significantly in wind and solar generation projects. Ørsted is a major player in the global green energy transformation.
Pension Insurance Corporation Plc	Financials	B2	Saving for the future	Pension Insurance Corp. Plc provides risk management solutions and insurance products. The firm offers pension insurance buyouts, buy-ins, and longevity insurance solutions. Its clients include companies, multinationals, and the public sector. Contributing to a sustainable economy by de-risking clients pension portfolio and assisting clients saving for their future. Also contributing to a sustainable economy through the adoption of more responsible investment policies.

Company name	Sector	Sustainability Matrix	Sustainable investment theme	What this company does and how it contributes to a more sustainable economy
Societe Generale Sa	Financials	C2	Financing housing	"Societe Generale SA attracts deposits and offers commercial, retail, investment, and private banking services. It is exposed to our Financing Housing theme, with its loan book 29% exposed to the residential mortgage market, which benefits society by enabling home ownership that customers would otherwise be unable to afford, whilst also allowing customers to build equity, increasing net savings over time. It is also exposed to the Enabling SMEs theme as a provider of SME lending which constitutes 10% of the loan book, fostering sustainable economic development, employment and innovation.
Southern Gas Networks Plc	Utilities	C2	Improving the efficiency of energy use	Scotia Gas Networks Ltd is one of the UK's largest gas distribution networks, providing natural gas services to over 6m customers, operating across Scotland, Southern England and Northern Ireland. It owns and operates two of the eight UK gas distribution networks, Southern Gas Networks and Scotland Gas Networks. The two networks are managed as one entity, although they have separate regulatory licenses, and they remain legally separate and independent of each other. They continue to make significant investments in their network to maintain reliability and safety, and to ensure network compatibility for developments in green gas (hydrogen and biomethane).
Southern Housing Group Limited	Health Care	A1	Building better cities	Southern Housing Group Limited operates as a non-profit housing authority providing housing facilities with a housing portfolio of c.30,000 properties. Their primary offering is to offer affordable homes at significant discounts to the market to that need them most.
United Utilities Water Finance Plc	Financials	B3	Improving the management of water	United Utilities is the second largest of 10 water and sewerage companies in England and Wales, with an RCV of £13.4 billion. Despite poor operational performance from UK water utilities, United Utilities are aiming to improve this through better management and higher investment in the assets, with net total expenditure increasing by 100% to the next regulatory period.

Additional ESG metrics

We have committed to disclose additional ESG data for investors in the SF Funds. The following data relating to social, governance and human rights metrics has been requested by investors or sustainability labels. We have engagement and voting policies designed to improve the social, governance, environmental and human rights aspects for the companies in which the fund invests.

Data availability is improving. For example, in the case of staff turnover, where data availability was as low as 20-25% when we first started disclosing this in 2019, it has now nearly doubled. Our engagement priority is to encourage companies to participate in the Workforce Disclosure Initiative, which aims to target companies to report more information on how they manage staff and we believe is contributing to this increased disclosure on social metrics.

For human rights, we use data on the United Nations Global Compact as a proxy. The UN Global Compact is a set of principles to minimise unintended negative impacts in terms of harm to the environment and society and includes a significant amount relating to labour rights and human rights.

We have committed to disclose additional data related to the sustainability aspects of the fund, which we will disclose as part of our reporting cycle every six months.

Key risks

Past performance does not predict future returns. You may get back less than you originally invested. We recommend this fund is held long term (minimum period of 5 years). We recommend that you hold this fund as part of a diversified portfolio of investments.

- All investments will be expected to conform to our social and environmental criteria.
- Overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- Bonds are affected by changes in interest rates and their value and the income they generate can rise or fall as a result;
- the creditworthiness of a bond issuer may also affect that bond's value. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may have difficulty in paying their debts. The value of a bond would be significantly affected if the issuer either refused to pay or was unable to pay.
- The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.

The issue of units/shares in Liontrust Funds may be subject to an initial charge, which will have an impact on the realisable value of the investment, particularly in the short term. Investments should always be considered as long term.

Liontrust uses Carbon Balanced Paper to reduce the carbon impacts of all our printed communications. This reduces Liontrust's carbon footprint and has a positive impact on carbon change. www.carbonbalancedpaper.com
