LIONTRUST ASSET MANAGEMENT PLC
Trading Update

Liontrust Asset Management Plc (“**Liontrust**” or the “**Company**”), the specialist independent fund management group, today issues its trading update for the three months ended 31 December 2025 (the “**Period**”).

- Net outflows of £1.0 billion in the Period (2024: £1.6 billion).
- Assets under management and advice (“**AuMA**”) were £21.5 billion as at 31 December 2025.
- Two mandate wins driving Institutional net inflows of £330 million in the Period.
- AuMA as at 10 January 2026 were £21.7 billion.

Commenting, John Ions, Chief Executive Officer, said:

“Liontrust received funding for two new mandates in the last quarter, leading to Institutional net inflows of £330 million in the Period. We have a good potential pipeline and are focused on securing further mandates and returning to positive net inflows for the UK’s wholesale and retail markets.

The brand remains strong, as shown by the fact that Liontrust is rated as the 4th best asset manager by advisers in the UK and 8th best by wealth managers in independent research¹. The excellent client relationships and brand reputation that Liontrust has across the market are the foundation from which flows will grow over time.

The broadening investment capability is shown by the fact that we had success in European equities in 2025 and have delivered first quartile performance across global equity, fixed income and multi-asset funds in the past one and three years².

Quality, mid and small cap stocks with strong balance sheets, which are the mainstay of the Economic Advantage and Sustainable Investment funds, have historically delivered material long-term returns. As engines of innovation and employment, they have also been key to driving economic growth. UK valuations are compelling, especially with a backdrop of lower inflation and reducing interest rates, but a prolonged period of share price underperformance has raised threats to the country’s competitiveness. Co-ordinated action is required to restore confidence, and this will also unlock capital flows.

Our confidence in the outlook for Liontrust is reflected in the investment made in the business and the ongoing share buy backs. In ensuring that we deliver for clients through disciplined, long-term active management and excellent client service and communications, we can return the business to growth.”
