

# Placing a Referral Order for Telehealth

This tipsheet details the instructions for placing a referral for Telehealth services. NEUROLOGY

## Try It Out

1. Start by opening the preference list then selecting Referrals and selecting the desired specialty.

### NEUROLOGY

The screenshot shows a software interface for placing orders. On the left is a navigation menu with categories like 'NMMCI Quick Pick', 'Labs', 'Imaging', 'Procedures', 'Immunizations', 'Referrals', 'Medications', 'Cardiology', 'Mobile', and 'In-Clinic Medications'. The 'Referrals' category is expanded, and 'Referrals' is highlighted. The main area displays a list of specialties, each with a checkbox. 'Neurology' is checked and highlighted in green. Below the list, there are sections for 'Medications' and 'Analgesics-Narcotic'. At the bottom, there is a search bar, a plus sign, a menu icon (highlighted with a yellow circle and a red arrow), and a button that says '+ ADD DX (0)'.

2. When prompted, select that the referral is a "Telehealth" referral on the order composer Screen.

**Ambulatory referral to Neurology**

Class:  **Internal**

Referral:  Override restrictions

To dept:   **NMMCI NEUROLOGY**

To dept spec:

To provider:

To prov spec:  **Neurology**

Reason:  **Specialty Services Required**

Priority:   **Routine**

**!** Is this referral for headaches?

Is this a telehealth referral?

What location is preferred?

## PICK AN APPROPRIATE LOCATION!

Be sure to select an appropriate location where our telehealth services are offered!

3. Associate the referral order with an appropriate diagnosis, then sign the order.

**Associate Diagnoses**

**Itstestonly, Cat**

**Acute non intractable tension-type headache**

Ambulatory referral to Neurology

**Dx Association**    **!** **Ambulatory referral to Neurology**
