

Placing a Referral Order for Telehealth

This tipsheet details the instructions for placing a referral for Telehealth services. (GERIATRICS)

Try It Out

1. Start by opening the preference list then selecting Referrals and selecting the desired specialty.

GERIATRICS

The screenshot shows a software interface for placing a referral order. On the left, a sidebar contains a list of categories: Labs, Imaging, Procedures, Immunizations, Referrals (highlighted in yellow), Supplies, Medications, Cardiology, and In-Clinic Medications. The 'Referrals' category is expanded, showing a list of specialties. The 'Ambulatory referral to Geriatrics' option is selected, indicated by a green checkmark and a green highlight. At the bottom of the interface, there is a search bar for new orders, a plus sign, a menu icon (highlighted in yellow with a red arrow), and a button labeled '+ ADD DX (0)'. The top right corner of the interface shows 'Order Sea'.

2. When prompted, select that the referral is a “Telehealth” referral on the order composer Screen.
