NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED JUNE 30, 2005

(1) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Michigan State University (The University) and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

(2) *Indirect Costs*

Included as federal expenditures are indirect costs of \$43,243,670 which are based on rates negotiated with the cognizant agency.

(3) *Pass-through Funds*

Certain pass-through funds consist of commingled funds from federal and non federal sources. The commingled component cannot be separated to specify the individual funding sources and, therefore, the total amount is included in the schedule of federal expenditures.

(4) *Catalog of Federal Domestic Assistance (CFDA) Numbers*

All programs with identifiable CFDA numbers have been listed separately. Award numbers have been provided for all programs for which CFDA numbers were not available (99.).

(5) *Student Loan Funds*

The University administers several student loan programs for which funding to provide loans is from federal contributions and repayments of existing student loans (revolving funds). These loans, as listed below and in the following paragraphs, have been excluded from the Schedule of Expenditures of Federal Awards. A summary of current year federal contributions and loans granted are as follows:

	CFDA No.	Loans Granted	Loans Outstanding
Perkins	84.038	\$7,152,560	\$34,996,477
Human Medicine	93.342	116,458	1,163,876
Human Medicine/LDS	93.342	258,617	671,196

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Trustees
Michigan State University:

We have audited the financial statements of Michigan State University (the University) and its discretely presented component unit as of and for the year ended June 30, 2005, and have issued our report thereon dated September 30, 2005. Our report included an explanatory paragraph indicating the University changed its policy on the definition of a cash equivalent in fiscal 2005. We did not audit the financial statements of the Michigan State University Foundation (the Foundation), which represent all the assets and revenues of the discretely presented component unit. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Foundation, is based on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*.

Our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grants, and other matters did not include the entity audited by the other auditors referred to in the previous paragraph. The findings, if any, of those other auditors are not included herein.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the

determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Trustees, management, and federal awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance with Requirements
Applicable to Each Major Program and on Internal Control Over
Compliance in Accordance with OMB Circular A-133
and Schedule of Expenditures of Federal Awards**

The Board of Trustees
Michigan State University:

Compliance

We have audited the compliance of Michigan State University (the University) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2005. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 05-2.

Internal Control Over Compliance

The management of the University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the University's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying schedule of findings and questioned costs as items 05-1 and 05-2.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the University as of and for the year ended June 30, 2005, and have issued our report thereon dated September 30, 2005. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis, as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Trustees, management, and federal awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

MICHIGAN STATE UNIVERSITY

Schedule of Findings and Questioned Costs

Year ended June 30, 2005

(3) Findings and Questioned Costs Relating to Federal Awards:

Finding 05-1

Grant Program/CFDA #: Research and Development Cluster/Various

Federal Agency/Pass-Through Entity: Various

Federal Award#: Various

Requirement: *Procurement.* OMB Circular A-110, section .13, requires federal awarding agencies and recipients to comply with the procurement and non-procurement debarment and suspension common rule implementing Executive Orders 12549 and 12689, "Debarment and Suspension." This common rule restricts subawards and contracts with certain parties that are debarred, suspended or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

Documentation needs to be maintained providing evidence those parties receiving awards greater than \$100,000 are certified as not suspended or debarred. Effective November 26, 2003, verification of non-suspension or debarment needs to be obtained for contractors receiving awards greater than \$25,000. Checking the Excluded Parties List System and obtaining a certification from the contractor would accomplish verification.

Finding: The University could not provide documented evidence whether contractors are certified as not being suspended or debarred for 9 out of 60 items selected for testwork. Based on a review of the Excluded Parties List System, none of the contractors noted above were suspended or debarred. 30 of the 60 items sampled represent sub-awards to subrecipients of which no exceptions were noted.

Questioned Costs: None

Systemic or Isolated: This instance of noncompliance is systemic.

Effect of Finding: The University might have a business relationship with a contractor that is suspended or debarred and could potentially lose federal funding due to non-compliance.

Recommendation: Documentation should be maintained regarding suspended and debarred contractors.

Views of Responsible Officials: The University has updated our written procedures and notified appropriate staff.

Finding 05-2

Grant Program/CFDA #: Research and Development Cluster/Various

Federal Agency/Pass-Through Entity: Various

Federal Award#: Various

Requirement: *Subrecipient Monitoring.* OMB Circular A-133, Section .400(d), requires that pass-through entities ensure the following:

- (1) Subrecipients expending \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) or more in Federal awards during the subrecipient's fiscal year have met the audit requirements of this part for that fiscal year;
- (2) Issue a management decision on audit findings within six months after receipt of the subrecipient's audit report and ensure that the subrecipient takes appropriate and timely corrective action; and
- (3) Consider whether subrecipient audits necessitate adjustment of the pass-through entity's own records.

Finding: The University did not obtain the most current audit reports or maintain any other communication to verify that a review of the audit reports was performed for 10 out of 30 subrecipients selected for testwork.

Questioned Costs: None

Systemic or Isolated: This instance of noncompliance is systemic.

Effect of Finding: The University could potentially lose federal funding due to non-compliance.

Recommendation: A system should be maintained that ensures that all subrecipient audit reports are obtained and findings, if any, are subsequently resolved.

Views of Responsible Officials: The University has updated our written procedures and notified appropriate staff.
