Community Organizations

What is a RCO anyway?

The Substance Abuse and Mental Health Services Administration (SAMHSA) defines a Recovery Community Organization (RCO) as follows:

"Recovery Community Organizations (RCOs) are independent, non-profit organizations led and governed by representatives of local communities of recovery. These organizations organize recovery-focused policy advocacy activities, carry out recovery-focused community education and outreach programs, and provide peer-based recovery support services."

How is the RFW Program Helping?

A Recovery Friendly Workplace

Acknowledges

the needs of employees who may be impacted by substance misuse, the process of recovery, and the opportunity to provide a supportive work environment.

Educates

by providing learning opportunities and tools to increase the understanding of substance misuse, the disease of addiction, resources, and recovery supports.

Offers Support

to employers and employees, providing opportunities to increase safety and wellness through best practices, policies, and connections to resources.

Why Should Employers Get Involved?

- You are most likely employing someone with SUD
- Work is where we reach people. Most people spend more time at work than with their family, friends, social connections, etc.
- Direct/indirect impact of SUD on the workforce
- Talent retention
- 217 Recovery available to provide both Narcan kits and training

Additional Benefits of Addressing SUDs

- Productivity
- Employee Health
- Morale
- Communication
- Employee Satisfaction
- Community Connections
- Customer Loyalty
- Absenteeism
- Turnover
- Impact on Families
