

Health Care & Other Providers - Veteran Resources

- ❖ **Partner with VA and provide care to Veterans!**
- ❖ **Ask the Question...
“Have You Served?”
It’s the right thing to do!**

- **567,919 Veterans in Michigan**
- **Over 2/3 receive community care, some through the VA**
- **Less than 50% are receiving all their earned benefits**

Community providers play a vital role in ensuring Veterans receive the care they earned.

There are many success stories of providers connecting Veterans and their families with resources.

But there’s still work to be done. Sadly, one Veteran struggling with chronic head pain and other difficulties had been to three different healthcare facilities and not one asked if he had ever served in the military. He had been in IED explosions and lost his roommate in an explosion. He was given pain meds and sent home. He never received an accurate diagnosis or relevant treatment. The Veteran died by suicide.

FEDERAL SUPPORT FOR VETERANS, CAREGIVERS and their FAMILIES

The Veterans Administration offers many programs designed to benefit Veterans, their families, and their Caregivers. <https://www.va.gov/>

- **Provide care to Veterans by joining the new VA Community Care Network.** Community providers are critical to Veteran’s health! Community Care Overview / homepage: [LINK](#)
