File a PACT Act Claim

Your current VA disability rating could increase. This could provide a significant increase in monthly compensation, especially for Veterans with dependents.

Even those already receiving the maximum monthly benefit due to a 100% disability rating should file. This could benefit the Veteran now, and their family later.

Survivors of deceased Veterans may benefit from an increase in their Veteran's disability rating and could become eligible for previously denied compensation.

The PACT Act is a new law, and the most significant expansion and extension of Veteran benefits, eligibility, and care in more than 30 years.
