Course Request

- Along with the program requests from the colleges, we also processed course requests
 - Courses new n=180
 - Course changes n=632
 - Course deletions n=35

Other Decisions Information

Approved the transfer of curriculum from the current Residential College in the Arts and Humanities to the College of Arts and Letters, this assists with the merger.

Approval of the new subject code Global Health for the College of Osteopathic Medicine

Approval for Ag Tech Program in the College of Agriculture and Natural Resources to add transcriptable concentrations due to size of certificates.

Other Decisions Information

Input to the Office of Accreditation, Assessment, Curriculum, and Compliance the use of stackable credentials and master's programs. This could launch a broader discussion of how terminology is defined for the university and use in undergraduate curriculum.

The updated COURSES form launches today (April 21), education will be provided.

General Education Council has presented work to date. Note will have increased workload if approved to accommodate each undergraduate program with the changes.

For Fall 2026, we will be continuing with both undergraduate and graduate curriculum decisions
