ABSTRACT

The Michigan State University policy on Integrity of Scholarship is set forth in General Student regulation 1.00, cited in the University catalog: “The principles of truth and honesty are recognized as fundamental to a community of teachers and scholars. No student shall claim or submit the work of another as one's own.” These principles apply to the preparation of master's theses and doctoral dissertations as well as to all other academic work. In submitting a thesis/dissertation in partial fulfillment of the requirements for a master's or doctoral degree, a student takes responsibility for the integrity of that work.
