General statements, such as "the Respondent reserves the right to negotiate the terms and conditions," may be considered non-responsive.

11. **RESERVATIONS.** The University reserves the right to:

- a. Disqualify a Respondent for failure to follow these instructions.
 - b. Discontinue the RFP process at any time for any or no reason. The issuance of an RFP, your preparation and submission of a proposal, and the University's subsequent receipt and evaluation of your proposal does not commit the University to award a contract to you or anyone, even if all the requirements in the RFP are met.
 - c.  - n. Utilize third parties to assist in the evaluation process, provided such parties are subject to confidentiality requirements.
- 12. AWARD RECOMMENDATION.** The contract will be awarded to the responsive and responsible Respondent who offers the best value to the University, as determined by the University. Best value will be determined by the Respondent meeting any mandatory minimum requirements and offering the best combination of the factors in **Section 8, Evaluation Process**, and price, as demonstrated by the proposal. The University will email a **Notice of Award** to all Respondents. A Notice of Award does not constitute a contract, as the parties must reach final agreement on a signed contract before any services can be provided. The awarded Respondent is prohibited from partnering with losing bidders unless the RFP specifically allows for such arrangement, and any violation of this prohibition may result in disqualification of the awarded Respondent.

SCOPE OF WORK

Please address each of the sections below in a written response, which can be completed on a separate sheet (using the same section headings).

1. Background.

Founded in 1855, Michigan State University (MSU) is the nation's premier land-grant university and one of the top research universities in the world. MSU offers over 400 Academic programs, across 17 degree-granting colleges. Over 51,000 students and grounds covering 5,200 acres make MSU one of the biggest and greenest campus in the nation. With over \$992M in research expenditure (2025), MSU's nationally recognized faculty and programs, and innovative research facilities push the boundaries of discovery and yield solutions that make daily life better. With a \$9.7B statewide total economic impact, MSU applies its vast knowledge and resources to create solutions in partnership with communities across the state and helps make Michigan a place of opportunity, economic growth and innovation. As the nation's pioneer land-grant university, MSU continues in that tradition through state-wide agricultural extension agencies, and experimental research stations funded separately by the state of Michigan.

Through this RFP, MSU seeks to enhance our strategic relationship with key suppliers of laboratory and medical supplies. We aim to streamline our near \$50 million annual spend with partners, who we anticipate will see higher purchase volume, in exchange for competitive, enterprise-wide pricing, quality products, and value-added services. We additionally hope to establish pathways for new and smaller vendors to supply products we may not already be sourcing from them.

This initiative represents a significant growth opportunity for our existing partners, as well as a new opportunity for companies not currently supplying MSU, and we are seeking suppliers who can demonstrate unique capabilities, partner with us to drive mutual, long-term benefits, and collaborate across several key laboratory and medical categories.
