2. HOW TO CREATE AND UPLOAD ANIMAL TREATMENT RECORDS FROM DAIRY COMP 305

Use the following instructions to answer the questions prompted by the AUBT.

To find out:	Write in command line:
Total number of adult cows (Lactating and dry)	SUM BY LACT FOR LACT>0
Total number of pre-weaned calves (Less than 60 days)	SUM BY AGE FOR LACT=0 AGE<2

NOTE: In order to account for all antibiotics used, type on the command line ALTER\9 to set "Gap" to zero (0) for the events that use antibiotics. Event gaps altered should be set back to original number after completion.

Use the following instructions to create animal treatment records CSV file.

To create summary report:	Write in command line:
List of events* for adult cows (Lactating and dry)	EVENTS\2S365I ID BDAT LACT FOR LACT>0
List of events* pre-weaned calves (Less than 60 days)	EVENTS\2S365I ID BDAT LACT FOR DIM<60 LACT=0

*Select ALL the events that required antibiotic usage.

Save the report as a CSV file and upload to AUBT when prompted.
