

LET'S CELEBRATE!

3-inch CUPCAKE PENNANTS

12 pennants per sheet

SUPPLIES:

Scissors, glue, tape, toothpicks

DIRECTIONS:

- Trim along the dotted lines.
- Fold along the solid grey line to create the flap.
- With your pennant face down, glue your toothpick into the flap crease.
- Pull the flap over the toothpick and tape or glue the flap to the back of the pennant to secure it in place.

Sparty's tip: Use these pennants for individual cupcakes or treats, or use as table decorations. Skip the toothpick and run string through the flap pocket to hang the mini pennants together like a banner. You can also trim the flap off to tape the pennants to photo boards or lay them flat on tables.
