ADVARRA

Clinical Research Training at MSU!

CTSI is offering Advarra Research-Ready online training for MSU clinical researchers!

Introductory research and conduct essentials are presented with short videos engaging learners in essential research topics. Separate curriculum tracks available for PIs and clinical research coordinators. Training simplifies historically complex topics using modern eLearning methods, ensuring compliance.

To access Ability training: https://orrs.msu.edu/training

- Search courses for 'Research'
- Select 'Clinical Research Coordinator' or 'Clinical Research Principal Investigator' track

Great for individuals new to research or wanting a refresher!

Completed in MSU Ability system

- Learner can set the pace
- GCP E6 (R3) principles included
- 15 training modules each less than 30 minutes
- Brief quiz after each module
- 80% score required on each quiz
- Certificate upon completion of all modules
- ACRP and SOCRA may accept training for recertification*
  *check with certifying agency for requirements
