## CURRICULAR REQUIREMENTS

Michigan State University and James Madison College are on the semester calendar. The James Madison College overall curriculum is made up of University requirements, JMC requirements, and major requirements. Most students complete about 30 credits per year. About half of these credits are taken in Madison classes taught by Madison faculty. The remainder of the course work comes from a variety of other colleges and departments on campus.

### UNIVERSITY REQUIREMENTS

#### 1. Writing and Integrative Studies

Like other students at MSU, a part of the first and second year is spent fulfilling the University's Integrative Studies requirements. These requirements represent four areas: a) Writing; b) Natural Science; c) Arts and Humanities; and d) Social Science and Tier I writing requirements. The Integrative Studies requirements in General Science and in the Arts & Humanities are met by completing approved courses with a (D) for domestic and one denoted with an (I) for International. One of the science courses must have a concurrent lab. MSU has a wide selection of courses that will meet these requirements. In addition to these four areas, students must complete a Tier II writing requirement. Madison students fulfill the Tier II writing requirement in the normal process of completing their majors (i.e., students will not need to take any additional classes to meet this requirement).

#### 2. Math Requirement

Successful completion of this requirement can be accomplished in one of two ways:

A. A placement examination score of 19 or higher in a proctored setting at NSO, which demonstrates competency equivalent to the following: two years of high school algebra; one year of high school geometry; and one year of probability, trigonometry, or calculus.

B. Completion at MSU or transfer equivalent of one of the following options:

- Two of the following: MTH 101, MTH 102 and MTH 103 (or MTH 103 waiver)
- MTH 103 (or MTH 103 waiver) AND one of the following: MTH 124, MTH 132, MTH 152H, STT 200 or STT 201

### JAMES MADISON COLLEGE REQUIREMENTS

#### The First Year Program

The first year at Madison features our Identity and Community and Introduction to Public Affairs courses. These courses fulfill the University's Tier I writing and integrative social science requirements.

**MC 111: Identity and Community: An Approach to Writing** introduces students to issues of identity and community in American and/or international contexts. Among the questions individual sections of MC 111 might address are: What factors shape identity? How does one define community and what rights and responsibilities accompany membership in various communities? How do notions of identity and community differ across cultures? How have writers from a variety of communities articulated their identities in literature? How do imaginative literatures, histories, and other cultural texts (like film) represent individual collective, civic, and national identities?

Writing assignments in MC 111 typically include: personal essays, narratives, or analytical autobiographies; analytical or interpretive essays requiring close textual analysis; synthesis essays in which several texts are analyzed in relation to each other; and/or critiques of primary and secondary texts. The emphasis is on (1) developing an effective writing process by drafting, revising, critiquing, and editing essays as part of a community of writers; (2) honing the reading, writing, critical thinking and discussion skills necessary to participate meaningfully in an intellectual community.

# LIFE IN THE CLASSROOM

## **MC 201-202: Introduction to the Study of Public Affairs**

The first year of Madison also features our introductory course in the social sciences (MC 201-202: Introduction to the Study of Public Affairs), the College's equivalent of the University's Integrative Studies in Social Science requirement. The goals of the course are (1) to introduce students to the social sciences and to several enduring themes and issues in public affairs in the context of a broad liberal arts education, and (2) to provide a foundation for upper division study in the College. By "foundation," we mean substantive knowledge, analytical thinking, research and writing skills, and experience with multidisciplinary study.

MC 201-202 is a two-semester sequence focusing on the social sciences. During the first semester (MC 201), students explore key features of the United States policy and society in historical and comparative perspective. The course introduces students to some of the political, economic, and social dimensions of American civilization, and how they shape our approach to public affairs. More specifically, the course considers the enduring tensions in the United States being a liberal democratic political community, a mixed capitalist economy, and a diverse society. Readings include a range of perspectives from history, economics, political science, political theory and sociology. Written assignments may include analytical or comparative essays, short research papers, and critical reviews. Students are encouraged to link their explorations of identity and community in MC 111 with discussion of the American community and public life in MC 201.

MC 201 includes occasional films, videos, panel discussions, special co-curricular events, and faculty or student debates. MC 201 meets weekly for group lectures or common experiences and then again for small discussions. The seminars provide opportunities for students to discuss the readings and lectures, ask questions, and engage in conversations. Expectations are high for broad student participation.

During the second semester (MC 202), students focus on selected issues in American and international public affairs, particularly as these are reflected in contemporary public debates. For example, one major theme in MC 202 has been nationalism and identity, which can include questions such as: Why are there growing national and ethnic conflicts in a changing post-war world? What are the relationships among membership, identity, nationalism, and ethnic and national conflicts? In MC 202, students' writing assignments may include preparing analytical essays, position papers and memoranda, and sustained research papers. Oral tasks may include presentations, debates, and simulations. Students are encouraged to expand their research skills, sharpen their judgment, and speak their views publicly.

## **Minimum MC Credit Requirements: 47 credits**

Students must complete a minimum of 47 credits in Madison (MC) courses. However, students transferring to Madison from another MSU major or from another college or university must complete a minimum of 41 credits.

## **The Economics Requirement: 6/7 credits**

All Madison students take microeconomics and macroeconomics (EC 201 or 251H and EC 202 or 252H) to provide background knowledge for their upper-division Madison courses. The economics requirement is an essential part of a liberal arts education that focuses on public affairs.

## **The Language Requirement: up to 20 credits**

To broaden the cultural, humanities, and analytical competencies of students and prepare them to become global citizens, James Madison College requires that all students attain second year university level competency in a second language. Students may do this by taking courses in a second language for two years at MSU or at another university. Students may be able to waive some or all of the university level second language course depending on their scores on the MSU placement or Advanced Placement test.

Please note that first semester-level Russian, Japanese, Chinese, Arabic and African languages may be taken Credit/No Credit. Students must decide in the first week of classes whether they will take a course Credit/No Credit and must go to the Registrar's Office to request the Credit/No Credit status. Students are encouraged to meet with their academic and career advisors to discuss language options prior to making a selection.

# LIFE IN THE CLASSROOM

## The Field Experience

A Madison education focuses on the application of knowledge and analysis to public issues, concerns and events, as well as on theoretical approaches to social science. As a result, Madison students learn to think critically and analytically about public affairs, to evaluate policy options, and to understand decision-making. Madison believes that a liberal education is incomplete without a chance to test and apply these abilities in professional settings.

During either the junior or senior year, at least one semester is spent in an internship instead of in the classroom. The College believes that it is important that our students spend at least three months interning in an organization and a position that interests them and gives them a chance to apply what they have learned in the classroom to the professional world. Many of our graduates have developed excellent job contacts through the organizations in which they interned.

Field experience is a requirement for all Madison students. It consists of two courses: MC 400 (3 - 9 credits, pass/no pass) and MC 401 (3 credits, pass/no pass). During the sophomore and junior years, students should explore the college's robust Field Experience Database for potential internship opportunities. The database includes listings with a variety of state and federal agencies, local governments, legislative offices, public interest and advocacy groups, legal aid societies, courts, social service agencies, businesses, newspapers, labor unions, and voluntary organizations. We have placements throughout the U.S. and abroad. The internships we approve aim to place Madison students in a decision-making role or close enough to it so that they may comment on it intelligently. This means that the work they do must be substantial and serious. With the Field Experience Coordinator's guidance and approval, students may seek an internship not listed on the database. Students must meet with the Field Experience Coordinator prior to beginning internship applications, preferably two full semester prior to the semester of the internship.

Students may, with advisor and Field Experience Coordinator approval, petition to substitute one of the following options for MC 400 and/or MC 401: qualifying education abroad experience; senior honors thesis; prior professional work experience relevant to the Madison program; dual major practicum (e.g.: Teacher Education, Criminal Justice, Journalism, etc.); ROTC. Journalism majors must meet with the Assistant Dean. Students considering substitutions for the Field Experience or part-time experiences should remember that they need to complete a minimum of 47 MC credits, or 41 credits if they are a transfer student (either internal or external).

## Major Requirements

Each of our four majors is built around a core of Madison classes that extend from the sophomore through senior years. This is supplemented by another group of related courses that will be mostly drawn from other majors in Madison or from other MSU departments. This mix of Madison and non-Madison classes is the centerpiece of the educational experience.

Madison's majors are designed to accommodate dual majors. Students can graduate in the normal amount of time even if they choose to pursue two of Madison's majors. It is best if this decision is made early in the sophomore year, but choosing this option even later is still manageable. Students are strongly recommended to consult their advisor or the Assistant Dean as they make this decision.

It is not unusual for students to be uncertain as to the major they wish to study. Students should keep in mind that the choice is not etched in stone; it is possible to change the major declaration or to take more time to decide without falling behind. Choosing a major is a process. Through the first year, students will want to get to know Madison faculty and fellow students; talk with their advisor; read carefully the sections on the majors in this handbook; attend the "Meet the Majors" meetings held by each major. Each of our majors offers a liberal arts education and solid preparation for a wide range of opportunities after graduation.

## Electives

Electives are courses that are chosen by the students to satisfy additional interests that they may have. Courses may be drawn from almost anywhere in the University. Students often use some of these electives to begin a second global language, take additional coursework in Madison, take courses in other MSU departments, or work on one of the many minors offered at MSU.

# LIFE IN THE CLASSROOM

## YEAR BY YEAR

### FIRST YEAR

In their first year, students will take their Madison requirements: MC 111, MC 201, and MC 202. First-year James Madison College students have the option to take an elective, one-credit course called MC 100. MC 100 provides an exploration of academic, social, personal and career decisions that students face in college, with a primary focus on the first year and the James Madison College experience. The other classes students take during the first year are drawn from outside Madison. Students with interest in pursuing additional majors outside of the College should also discuss the possible course implications with their advisor.

Toward the end of their first year in Madison, students are asked to indicate the major they plan to pursue. These are the four majors:

<b>COMPARATIVE CULTURES AND POLITICS</b>
<b>INTERNATIONAL RELATIONS</b>
<b>POLITICAL THEORY AND CONSTITUTIONAL DEMOCRACY</b>
<b>SOCIAL RELATIONS AND POLICY</b>

Before deciding, students will have the opportunity to attend “Meet the Majors” meetings to learn about each major, its requirements, its faculty, and possible careers.

### SECOND YEAR

During the sophomore year, Madison classes will build upon the analytical, writing, and verbal skills that students started to develop during their first year. These classes will also expose students to the major theoretical approaches and policy issues and concerns of their major. Most students complete the college economics requirement as well as finish their University integrative studies in this year.

### THIRD YEAR AND BEYOND

During the junior and senior years, students pursue advanced (300-400 level) coursework in their James Madison College major and fulfill the related area or disciplinary course requirements of their major. Students also complete the FIELD EXPERIENCE requirement. Finally, they can also look forward to taking a SENIOR SEMINAR in their major. Our Senior Seminars are intended to be capstone experiences – opportunities for students to pull together and reflect upon what they have learned in their Madison classes and to employ the skills they have mastered. These seminars are also research seminars, in which students will participate in creating and sharing knowledge. The seminars are small (about 15-20 students) and are focused on advanced topics of interest to faculty and students in the major.

Above is a recommended four year graduation plan. Students who wish to develop an alternative plan (3 year graduation) should consult with an advisor.

## ADDITIONAL PROGRAMS

### MADISON HONORS PROGRAM

Any Madison student may elect to enter the College Honors Program after selecting their major. In order to be designated as having successfully completed the Honors Program, a student must meet the following requirements:

- Successful completion of three Honors Options in courses required in the “core” of the student’s major (i.e., in courses in the major with the designation MC, either required or electives). Successful completion = meeting all the specified requirements for the awarding of the honors option designation, including a grade of 3.5 or better in each of the courses.
- Successful completion of one independent study (MC 399, 3-4 credits or MC 490H, 4 credits) in the student’s major during the junior year. Successful completion = 3.5 or better in the course.
- Successful completion of a senior honors thesis (MC 495H, full year, 4 credits for each semester) and a successful public defense of that thesis. Successful completion = a 3.5 or better in each senior thesis course, or overall when the grade given in the first semester is deferred.

### MSU HONORS COLLEGE

The MSU Honors College provides special programs of study for unusually talented undergraduates in all majors at MSU. The Honors College admits first-year students by invitation on the basis of nationally standardized test scores and outstanding high school achievement. Members of the Honors College are expected from the outset to pursue broader and more rigorous programs of study than other first-year students. Students not admitted into the Honors College for their first year may be invited to apply if they meet certain criteria including a specific grade point average after their first semester. Students with questions should see their advisor or an Honors College advisor. For a detailed account of Honors College benefits and requirements, students can consult MSU’s Academic Programs Catalog or visit [honorscollege.msu.edu](https://honorscollege.msu.edu).

### HONORS OPTIONS

For many courses not offered with “Honors” sections, students may earn Honors credit by completing Honors-caliber study with special guidance from the professor. This is common in Madison, with many students working closely with faculty, and meeting in small, regular sessions for their Honors option Madison courses. Students must earn at least a 3.5 in the course to earn an Honors designation.

### 3+3 LEGAL EDUCATION ADMISSION PROGRAM (LEAP)

The Legal Education Admission Program allows select James Madison College students to complete their Bachelor of Arts degree and Law Degree in six years. This program requires careful planning in conjunction with the Assistant Dean in James Madison College. To be considered for admission, students must meet with the Assistant Dean at the end of their first year, complete a minimum of 91 MSU credits, take the LSAT at the end of the second year, and apply for admission to the MSU College of Law by February 15th of their third year.

## TEACHER CERTIFICATION

Students may join the Teacher Preparation Program after reaching sophomore standing. This pathway is designed to prepare students to become educators able to tackle the challenges of today's classrooms and schools through teaching in the secondary school level. JMC majors are able to obtain certification for secondary education in social studies. Persons with teacher certification in social studies are qualified to teach history, political science, geography, and economics.

JMC students pursuing the Teacher Preparation Program pathway will be held to a lower number of MC credits, along with other programmatic substitutions. Those interested in pursuing the Teacher Preparation Program should contact Emelia Hammond, JMC Academic Advisor for Secondary Education students.

In addition to JMC major requirements as planned in consultation with JMC's Secondary Education advisor, MSU College of Education and State of Michigan certification required coursework is as follows:

College of Education Teacher Preparation coursework:

•TE101	•TE102	•TE150	•CEP240	
•TE341	•TE302	•TE325	•TE425	•TE426

State of Michigan Social Studies Certification coursework:

•GEO204	•GEO221	•GEO330		
•HST140	•HST150	•HST202	•HST203	•HST320
•HST201 (not required for SRP majors)				

JMC Teacher Preparation Pathway students will use TE427 and TE428 student teaching internship credits in place of the Field Experience requirement.
