A note about 2-week rotations:** These abbreviated rotations should only be scheduled during times that you do not anticipate needing a lot of time off. The departments that offer 2-week rotations do so with the expectation that students will have ***minimal to no absences.

Rotating off-cycle is not permitted. You must rotate according to the dates specified above.

Not all electives are available on all of these dates, and not all electives offer 2-week rotations. See the [Visiting Student Elective Catalog](#) and our VSLO Catalog for more information.
