MEMORANDUM

To: Trustee Finance Committee

From: Fred L. Poston 

Subject: **Authorization to Plan**
Reconstruct Bogue Street and Shaw Lane Intersection
(including partial closure of Bogue Street)

RECOMMENDATION

BE IT RESOLVED that the Trustee Finance Committee recommends that the Board of Trustees authorize the Administration to plan for the project entitled Reconstruct Bogue Street and Shaw Lane Intersection (including partial closure of Bogue Street).

BACKGROUND

Program Need:

The Bogue Street and Shaw Lane traffic circle do not currently meet pending ADA standards for accessibility. These new standards will require traffic signals for pedestrian safety, particularly pedestrians with mobility disabilities. These new standards do not support continued use of a traffic circle for an intersection with high volumes of pedestrians, bicycles, and vehicles. The closure of a section of Bogue Street also allows for further expansion of FRIB.

General Description of the Project:

The planning of this project is anticipated to include reconstruction of the Bogue Street and Shaw Lane traffic circle to be compliant with ADA standards. The planning will also include the closure of Bogue Street between Shaw and Wilson roads. Accessibility to Wharton Center will remain open.

The project is located in the northeast corner of the Central Academic District and borders the Residential District. This is a Just-In-Time maintenance project and is consistent with the Campus Master Plan and Planning Principles.

Based on an assessment of the factors stated in the Project Planning and Approval process concerning Project Labor Agreements (PLA), the Vice President for Finance and Operations and Treasurer has determined that a PLA would not be required for this project.

OFFICE OF THE
VICE PRESIDENT FOR
FINANCE AND
OPERATIONS

Communication Plan:

During the planning phase, the campus community will be given opportunities to provide feedback on the project as it is being designed. Input from the project planning team will be solicited during the design phase.

Preliminary Project Cost Information:

Based on cost experience for similar projects and current pricing information, the preliminary project cost estimate is \$4,000,000. This estimate may change as planning progresses and the project scope is further defined.

The source of funds for the project is expected to be the General Fund - Just-In-Time.
