APPROVED

FEBRUARY 15, 2019

**BOARD OF TRUSTEES
MICHIGAN STATE UNIVERSITY**

February 15, 2019

MEMORANDUM

To: Committee on Budget and Finance

From: Daniel J. Bollman 
Vice President for Strategic Infrastructure Planning and Facilities

Subject: **Authorization to Plan**
Intramural Recreative Sports West - Outdoor Pool Upgrade

RECOMMENDATION

The Trustee Committee on Budget and Finance recommends that the Board of Trustees authorize the Administration to plan to upgrade the outdoor pool at the Intramural Recreative Sports West building.

RESOLUTION

BE IT RESOLVED, that the Board of Trustees of Michigan State University hereby authorizes the Administration to plan for the project entitled "Intramural Recreative Sports West - Outdoor Pool Upgrade."

BACKGROUND

Program Need:

MSU opened the IM West facility in 1958. The outdoor pool is original to the building and, while it has received improvements and maintenance since that time, it is now beyond the end of its useful life and is currently closed for swimming. Also, Intercollegiate Athletics currently does not have access to a 50 meter swimming pool, which is required for NCAA competitions. An upgraded swimming pool would address the NCAA requirements, as well as provide capacity for recreation and fitness activities.

General Description of the Project:

As planning begins, the project is anticipated to include updating the pool, including outdated mechanical systems and auxiliary spaces necessary to meet current NCAA competition requirements. The project will also address safety, ADA access, and code compliance issues; removal of the diving tower and leveling the deep end of the pool to a standard 6' depth. The project will also examine options to enclose the pool with a cost-effective retractable system to allow for swimming year-round.

ipf.msu.edu

The IM West is on Chestnut Road in the athletic and recreation district. The project will be consistent with the Campus Land Use Master Plan.

Communication Plan:

Input will be solicited from the campus community during the planning phase.

Preliminary Project Cost Information

Based on cost experience for similar projects and current pricing information, the preliminary project cost estimate is \$6,000,000 - \$10,000,000. This estimate may change as the project and its scope are refined during the planning process.

The source of funds for the project is expected to be from a combination of gifts to Intercollegiate Athletics, general fund including capital renewal, and auxiliary activities fund - Athletics, and/or debt financing with debt repayment from the same sources.
