

ABHISHEK AGRAWAL

Sr. Healthcare Management Consultant

abhishek.agrawal@milliman.com

+91 124 464 1507

Current Responsibility

Abhishek is a senior healthcare management consultant at Milliman's India office. He leads health data analytics projects for Milliman clients in India and globally. Abhishek started working at Milliman in India in 2005. He ventured out of Milliman for five years and joined the firm again in 2017.

Professional Work Experience

Abhishek has over 15 years of experience in health insurance. His experience includes health data analytics and benchmarking projects, market intelligence reports, business plan evaluations of Indian health insurers for market entry feasibility and PE investments. Abhishek has also worked on projects related to data analytics and performance forecasting of social health schemes.

He has been involved with assignments for various insurance companies, governments of multiple countries and international agencies. He has also worked on Milliman proprietary products and tools specifically designed for the U.S. health insurance industry.

Abhishek's experience includes:

- Data analytics and benchmarking
- Strategic consulting for insurers
- Product development and pricing
- DRG based package pricing
- Medicare bid development and pricing

Education

- Post Graduate Diploma in Business Administration (Finance) from ICFAI Business School, Hyderabad, India
- Bachelor of Commerce, Kanpur University, Kanpur, India
