

VIVIEN ALBERTSEN

ACTUARY DAV

Senior Consultant

vivien.albertsen@milliman.com

Current Responsibility

Vivien Albertsen joined Milliman in October 2023, and is a senior consultant within the Düsseldorf office.

Her consulting activities include among others:

- Consulting of life insurers with respect to portfolio migration
- Analysis of concepts and specifications for the portfolio migration
- Conceptualisation and implementation of test cases for underwriting transactions for comparison of expected and actual behaviour of systems
- Actuarial analysis of deviations of test cases and communication of these anomalies

Professional Work Experience

Before joining Milliman, Vivien worked for two years for an actuarial consulting firm in Hamburg. In particular, she worked on the following tasks:

- Actuarial testing
- Execution of semi-automatic regression tests
- Training of new project employees

Prior to that, Vivien worked as a committee officer at the German Association of Actuaries (DAV) in Cologne. In particular, she worked on the following tasks:

- Supervision of specialised and professional committees
- Preparation and follow-up of meetings and implementation of decisions
- Summary and preparation of mathematical and actuarial questions
- Support with the creation of written submissions
- Execution and analysis of statistical surveys
