+1 802 497 5026

Current Responsibility

Dave Blake is a consulting actuary with the Atlantic Regional Property & Casualty Office of Milliman, based in Vermont. He joined the firm in 2019.

Professional Work Experience

Dave's experience in property and casualty actuarial work includes loss reserving, ratemaking, data analysis, model development, captive feasibility studies, and industry research. Dave works with numerous clients, including captives, multiline property and casualty insurers, risk retention groups, and catastrophe risk reinsurers. He has coauthored papers and delivered presentations on topics that include the Florida property market and catastrophe bonds in the developing world.

Presentations and Publications
