Current Responsibility

Andrew Dalton is a principal and consulting actuary with the Milwaukee office of Milliman. He joined the firm in 2007.

Professional Work Experience

Andrew consults primarily to life and health insurance companies and has extensive experience with long-term care insurance and life plan communities. His professional experience includes work on actuarial appraisals for mergers and acquisitions, asset and liability analysis, cash-flow testing, statutory and tax reserve reviews, life and health insurance model review and validation, expert witness testimony, and economic capital for life and health companies.

Andrew is a former chairperson of the Society of Actuaries' Investment Section Council and a former chairperson of the Society of Actuaries' Actuary of the Future Section Council. He served as a primary author of the textbooks *Stochastic Modeling: Theory and Reality from an Actuarial Perspective*, and *Discount Rates in Financial Reporting: A Practical Guide*, both published by the International Actuarial Association. Andrew is a frequent speaker at industry conferences in both North America and Europe.
