

CHERIE DODGE

Healthcare Consultant

cherie.dodge@milliman.com

Current Responsibility

Cherie Dodge is a healthcare consultant with the New York office of Milliman. She joined the firm in 2021.

Professional Work Experience

Cherie is a nurse with expertise in leveraging healthcare claims-based analytics to support the following:

- Identification and development of solutions to address variation in clinical practices
- Network strategy and value based contracting
- Selection, technical development, maintenance, and benchmarking related to quality metrics
- Design, development, and delivery of actionable reporting to monitor Provider Performance

Prior to joining Milliman, Cherie was a Provider Quality Consultant with Blue Cross & Blue Shield of Mississippi for over nine years. In that role, she provided clinical, analytical, operational, and strategic support to the company to implement prospective bundled payment and a comprehensive quality model for acute care hospitals. She was also the lead for Blue Cross and Blue Shield Association programs including Blue Distinction and High Performing Network.
