## Current Responsibility

Dan Henry is a consulting actuary with the San Francisco office of Milliman. He joined the firm's New York City office in 2007, and transferred to San Francisco three years later.

## Professional Work Experience

During his time at Milliman, Dan has worked for clients across the range of insurance carriers, healthcare providers, pharmaceutical companies, and government entities. His experience includes:

- Product design and pricing
- Large group, small group, and individual rating
- Reserving
- Financial reporting
- Benchmarking analysis
- Provider reimbursement analysis
- Legislation cost analysis (from state, carrier, and consumer perspectives)
- Model development for clients
- Health microinsurance
- Many aspects of healthcare reform implementation, including EHB compliance, MLR compliance, the impact of the 3 Rs, and rate filing reviews

Dan's technical expertise includes modeling in SAS, SQL, and VBA, and some familiarity with R. Other skills include technical writing for effective communication with all types of audiences.

## Professional Designations

- Fellow, Society of Actuaries
- Member, American Academy of Actuaries

## Education

- MA, Economics, Pennsylvania State University
- BA (cum laude), Economics, College of William and Mary
