Current Responsibility

Eleanor Hill is an associate actuary with Milliman's Health Practice. She is located in Houston, Texas, and joined the firm in 2018.

Professional Work Experience

Eleanor's area of expertise is health insurance. She assists clients with many aspects of their plans, including:

- Bid support and substantiation for Medicare Advantage and Part D plans
- Statements of actuarial opinion for actuarial liabilities
- Calculation of health reserves and IBNR for group, individual, and Texas Medicaid lines of business
- Utilization and cost benchmarking
- Rate adequacy
- Financial forecasting
- Medical data cleaning, analysis, and modeling

Eleanor is deeply involved in the development of multiple Milliman products. She helped lead the buildout and manages ongoing updates of Milliman DEPTH, a strategic planning tool for employers that distills claims experience into intelligible and actionable information. In addition, she is involved with research and development for the latest state-of-the-art models included in the Milliman Advanced Risk Adjusters (MARA) product suite.

Professional Designations

- Associate, Society of Actuaries
- Member, American Academy of Actuaries

Education

- BA (cum laude), Statistics, Rice University
- BA (cum laude), Mathematical Economic Analysis, Rice University
- Minor, Financial Computation and Modeling, Rice University
