

# JENNY JIN

ASA, FSA, MAAA

Principal - CAN

jenny.jin@milliman.com

+1 312 499 5722

## Current Responsibility

Jenny Jin is a consulting actuary with Milliman Financial Risk Management LLC, based in Chicago. She joined the firm in 2007.

## Professional Work Experience

Jenny has expertise in the pricing, implementation, and management of variable and equity-index annuities for U.S. and international insurance and reinsurance companies.

She has more than 10 years of experience in the insurance and risk management field. Her primary role involves managing the operations of multi-billion dollar hedging portfolios for a range of U.S. and international financial institutions. Her work is focused on leveraging industry standard risk management practices to improve the sustainable manufacturing and risk management of retirement income products.

Jenny is also responsible for researching and developing applications of predictive modeling techniques to better understand dynamic policyholder behavior assumptions and how policyholder behavior impacts the pricing, valuation, and risk management of variable annuity products.

## Professional Designations

- Fellow, Society of Actuaries
- Member, American Academy of Actuaries

## Education

BS, Mathematics, University of Waterloo, Canada

## Presentations and Publications

- Jin, Silverman and Carlson, New opportunities for U.S. life insurers on pension risk transfer (Milliman, 2015)
