+1 503 227 0634 x108

Current Responsibility

Ann is a principal and systems consultant with the Portland, Oregon, office of Milliman and manages its systems and programming group. She joined the firm in 1983.

Professional Work Experience

Ann is responsible for the design, development, and maintenance of a variety of custom-built pension systems, including plan participant databases, benefit calculation and administration systems, and outsourcing support systems. She consults on plan implementation, benefit administration, and ongoing management of retirement programs. Her areas of expertise also include employee communications, data analysis, and data quality control.
