+1 206 504 5964

## Current Responsibility

Rachel Kullman is a principal and consulting actuary with Milliman's Seattle Health Practice. She joined the firm in 2013.

## Professional Work Experience

Rachel's primary focus is on government-sponsored programs. She currently works on capitation rate development and other financial and policy support for State Medicaid Agencies and budget projections for the Veterans Health Administration. Recent projects include:

- Medicaid rate setting for managed care programs covering medical, pharmacy, behavioral health, long-term services and supports benefits for low-income family, blind, and disabled, ACA adult expansion, foster care, and CHIP populations
- Risk mitigation settlement design and implementation
- Federal enhanced FMAP support
- Development and analysis of changes to provider reimbursement
- 1115 waiver financial modeling support
- Development of the Enrollee Health Care Projection Model to support VHA budget and strategic planning
- Projection scenario development related to potential legislation and department initiatives

## Professional Designations

- Member, American Academy of Actuaries (MAAA)
- Fellow, Society of Actuaries (FSA)

## Education

BS, Mathematics, University of Missouri
