Current Responsibility

Pat Lawson is the director of the Employee Benefits Administration Technology Practice. He is responsible for the development, hosting, and information security of the group's applications. Pat works with Milliman alliance partners and vendors to deliver integrated solutions to our clients. He joined the firm in 2004.

Professional Work Experience

Pat has more than 20 years of experience in hardware and software planning, client services, operations, and project management. He started in technology in 1994 as a Quality Assurance Analyst.

Pat has an in-depth knowledge of information systems and software technologies, including:

- Security assessment and remediation
- Disaster recovery and business continuity
- Process optimization and automation
- Agile systems development methodologies
- Vendor management and assessment

Education

BA, Accounting, University of Tulsa, Tulsa, OK
