

MAITLAND MARSH

Senior Software Engineer

maitland.marsh@milliman.com

Current Responsibility

Maitland is a technology consultant with Milliman's Financial Risk Management practice in Chicago. He joined the firm in 2014.

Maitland has been engaged as a core software development resource for the MG-Hedge® operations platform, as well as varying pieces of client-specific software.

Professional Work Experience

Prior to joining Milliman, Maitland was a lead software developer at GE Healthcare, designing and building web and desktop applications for perinatal fetal monitoring systems, among them a mobile web application that allowed remote consultation between hospital staff and off-site physicians.

Before graduating with his bachelor's degree, Maitland also worked as a software development intern at the Michigan State University Department of Radiology, developing a tracking system for the university's Willard Body Program and at Jackson National Life Insurance with the New Business group.

Education

Bachelor of Science, Computer Science and Engineering, Michigan State University
