

### Yunsoo Park

Manager, Actuarial Consultant

---

#### CURRENT RESPONSIBILITY

Yunsoo joined the Seoul office of Milliman in April 2007 as an actuarial consultant. He is currently responsible for product research and analysis, using his extensive experience in product development for life companies.

#### EXPERIENCE

Yunsoo has 10 years of experience working at a life company, and has produced many life products that have made significant contributions to market sales. He also has worked on valuation and on maintaining industry policy and regulation.

His experience in Korea includes:

- Risk management and claim analysis
- Product pricing for a life insurance company
- Design and modification of individual life and annuity products
- Stochastic data analysis
- Research and inquiry in commission regulation
- Embedded value peer review project for a non-life company
- Extensive database testing and detailed testing

#### EDUCATION

- BA, Mathematics, Yonsei University
