Current Responsibility

Janet serves as the New Business Development Support Manager for Milliman's Employee Benefits Consulting (EBC) practice, bringing over 35 years of experience in the employee benefits field. Currently, she leads the Sales & Marketing Support Team, collaborating closely with Sales and Business Leaders. Her role involves the development and execution of comprehensive strategies, systems, tactics, metrics, budgets, and resource plans. These efforts aim to support and enhance sales revenue targets, as well as future growth objectives within the EBC practice.

Professional Work Experience

Janet has held significant roles in employee benefits consulting projects, including industry benchmarking and RFP reviews. She was crucial in establishing and overseeing the daily operations of the defined contribution and recordkeeping group. Her duties covered all aspects of workflow management, ensuring the prompt and accurate delivery of products and services to both plan participants and sponsors. She maintained the practice's standards in all tasks and carried out daily reconciliations of plan accounts with trust assets. With extensive experience in 401(k) plan administration, Janet was a driving force in shaping our services model through systems and technology. She set many of the practice standards and quality control procedures that underpin the excellence of Milliman's client services.
