

# PAUL ROSING

FCAS

Actuary

paul.rosing@milliman.com

+1 415 394 3715

## Current Responsibility

Paul Rosing is an actuary with the Property & Casualty Practice in Milliman's San Francisco office. He joined the firm in 2024.

## Professional Work Experience

Paul is actively involved in ratemaking and predictive modeling, particularly for flood-exposed property risks.

Paul's areas of expertise include:

- Designing and evaluating advanced data analytics solutions for use in pricing, underwriting, and claims management
- Informing strategy around machine learning, AI, and other advanced data capabilities
- Developing rates for personal and commercial lines products
- Deriving data-driven insights across lines of business such as Auto, Crop, Liability, Property, and Workers' Compensation
- Assessing third-party information sources for quality, reliability, and relevance to insurance applications
- Storytelling through dashboards and data visualizations

Prior to joining Milliman, Paul was a Divisional Assistant Vice President – Data at Great American Insurance Company, responsible for leading predictive modelers and data scientists in support of numerous specialty commercial lines of business. Prior to joining Great American, he worked at the Allstate Corporation.

## Professional Designations

Fellow, Casualty Actuarial Society

## Education

BA, Mathematics and Economics, Vanderbilt University
