## Current Responsibility

Hans Shaw is a managed care pharmacist with the Chicago office of Milliman. He joined the firm in 2020.

## Professional Work Experience

Hans has extensive experience providing clinical and analytical support for all pharmacy supply chain stakeholders. He has worked with pharmaceutical manufacturers, health plans, pharmacy benefit managers, employers, and state Medicaid agencies.

Hans' areas of expertise includes pharmacy and medical claims analysis, budget impact modeling, formulary / utilization management optimization, specialty drug management, and product evaluation. He supports clients by analyzing broad datasets and providing actionable opportunities to improve the triple aim.

Prior to joining Milliman, Hans completed a managed care pharmacy residency at a large national pharmacy benefit manager (PBM). He supported projects, such as pipeline drug forecasting and value / outcome-based contracting. Hans also led a claims analysis research project and published a peer-reviewed abstract in the Journal of Managed Care & Specialty Pharmacy.

Example of Hans' engagements include:

- Developing pharmacy tools, such as the Milliman specialty drug list, Formulary Analysis Tool (FAT), and pipeline drug trackers
- Developing pharmacy savings analyses targeting the Medicaid population
- Creating budget impact models to support manufacturer product launches
- Conducting claims analyses utilizing Milliman CHSD and external database
- Analyzing financial impacts of state Medicaid preferred drug lists
- Evaluating PBM product offerings and optimizing formulary / utilization management programs
- Conducting employer group requests for proposal for PBM carriers

## Professional Designations

Registered Pharmacist, Minnesota Board of Pharmacy

## Education

PharmD, University of Minnesota College of Pharmacy

## Presentations and Publications

Silseth S, and Shaw, H. (2021). Analysis of prescription drugs for the treatment of hepatitis C in the United States.

## Affiliations
