

MANABU SHOJI

Consultant

manabu.shoji@milliman.com

Current Responsibility

Since joining Milliman in July 2019, Manabu Shoji has supported the development and review of models in a range of contexts, including product development and business forecasting. He works with Milliman's proprietary platforms (Integrate and MegALFA) and with our clients' internally developed software. His assignments also include review and analysis of MCEV and providing support for appointed actuaries.

Professional Work Experience

Manabu Shoji started his career in April 2013 with Mitsui Sumitomo Insurance, where he was in charge of inward reinsurance of variable annuity business, specifically: hedging, pricing, financial modeling, and analysis of minimum guaranteed risks. He joined Prudential Gibraltar Financial Life Insurance in August 2016, where he supported product development, in particular, pricing, profitability validation, risk analysis, negotiation with the FSA for product filings, and documentation of internal models.
