

## Jason Van Schagen

Technology Consultant  
Financial Risk Management

### CURRENT RESPONSIBILITY

Jason is a technology consultant with the Financial Technology Group within Milliman's Financial Risk Management practice in Chicago.

He is actively involved in the planning, architecture, and development of the MG-Hedge<sup>®</sup> operations platform.

Jason is also working on several client specific software implementations.

### EXPERIENCE

Jason has more than 14 years of experience in software development, SQL database development and administration, and computer/networking hardware.

Prior to joining Milliman, Jason was a software developer with LifeWatch, a leading cardiac and diagnostic monitoring center. He helped to design, implement, and manage electronic medical records integration software that bridged the gap in bi-directional transfer of health data from a multitude of disparate EMR systems. Jason created software for several cardiac monitoring devices and their backend management systems.

Jason also worked with a small consulting firm developing software and database solutions for companies and institutions in Illinois, Wisconsin, and Indiana.

### EDUCATION

- BA, Liberal Studies, University of Illinois
