Current Responsibility

Chris Wanta is a senior actuarial manager with the Milwaukee office of Milliman. He joined the firm in 1989.

Professional Work Experience

Chris's area of expertise is the production of the Health Cost Guidelines™ products (Commercial Rating Structures, Commercial Claim Probability Distributions, Commercial Area Factors, Ages 65 and Over, Reinsurance, Dental, Small Group Medical Underwriting, and Individual Medical Underwriting). He also assists Programs for All-Inclusive Care for the Elderly (PACE) organizations across the country with the development of their Part D bids and related issues.

Chris has also assisted managed care clients in the areas of pricing, experience analysis, actuarial projections, and estimation of reserves and liabilities. He has completed ratings and analysis for large group, small group, and point-of-service products, plus he helped to develop Milliman's Claim Reserve Estimation Workbook.

Education

BA, Mathematics, Cardinal Stritch University
