+1 312 499 5732

Current Responsibility

Deyu is a consulting actuary with the Chicago office of Milliman. He joined the firm in 2006.

Professional Work Experience

Deyu primarily works with clients in the life insurance industry to assist in the design and pricing of life and annuity insurance products with a specialization on long-term care combination products.

Deyu has extensive financial modeling experience and knowledge of various lines of insurance products. He has helped numerous companies for long-term care combination product development and financial modeling on universal life, index universal life, variable universal life, whole life, and single/flexible pay deferred annuity products. Deyu has also been involved in the stochastic analysis of fixed Indexed annuity, index universal life and variable annuity products.
