**Press Release**

### **Milliman awards 25 Opportunity Scholarships in program's fifth year**

SEATTLE – August 26, 2021 – Milliman, Inc., a premier global consulting and actuarial firm, is pleased to announce the recipients of this year's Opportunity Scholarship program.

The program was created to assist students from racial and ethnic groups that are under-represented in the fields of actuarial science, data science, computer science, economics, programming, mathematics, statistics, data analytics, or finance.

This year, Opportunity Scholarship recipients include 25 students from colleges and universities across the United States, South Africa, and the United Kingdom who have demonstrated academic excellence and plan to pursue a career in actuarial science or related fields. Since 2017, its inaugural year, Milliman has awarded 86 scholarships as part of the program.

"These are outstanding students who will be an asset to their chosen field and profession," said Milliman CEO Steve White. "Milliman is pleased to recognize their success and support their academic pursuits as they explore actuarial and related careers."
