

In accordance with B5 (a) (Viii) of the [Harbourside Redevelopment SSD 7874 Conditions of Consent](#) this register is to be updated monthly and uploaded onto the project website until the completion of all works under the Conditions consent.

Date of Issue	Enquirer Category	Nature of Issue	Response	Status
20/12/2024	Local resident	Noise complaint regarding construction site alarm going off on the northern side of the site at approximately 3am.	Mirvac investigated the alarm issue and found that its source was from a tower crane on site. Something tripped on the motion sensor which resulted in an intermittent alarm around 3am. Mirvac was able to attend the site and turn it off. The motion sensor alarm is a critical piece of safety equipment designed to act as a deterrent to people climbing an unattended crane and cause injury. Mirvac apologises for the inconvenience this caused.	Closed
21/12/2024	Local resident	Noise complaint regarding construction site alarm going off on the northern side of the site at approximately 8.15pm.	Mirvac investigated the alarm issue and found that its source was from a tower crane on site. Something tripped on the motion sensor at 7.30pm which resulted in an intermittent alarm until 12am. Mirvac was able to attend the site and turn it off. The motion sensor alarm is a critical piece of safety equipment designed to act as a deterrent to people climbing an unattended crane and cause injury. Mirvac apologises for the inconvenience this caused.	Closed
