

Harbourside Redevelopment (SSD 7974) Issues Register

Updated: 31 January 2025

In accordance with B5 (a) (Viii) of the [Harbourside Redevelopment SSD 7874 Conditions of Consent](#) this register is to be updated monthly and uploaded onto the project website until the completion of all works under the Conditions consent.

Date of Issue	Enquirer Category	Nature of Issue	Response	Status
16/01/2025	Local resident	Noise complaint regarding construction site alarm going off on the northern side of the site on evening of 15/01/2025, turned off at 10.30pm.	The source of the alarm was the motion sensor on one of our tower cranes. This sensor is a vital safety feature designed to prevent unauthorised access and ensure site safety. Mirvac suspect that the repeated activations may be due to an electrical fault and are investigating the issue thoroughly. As an interim measure, Mirvac have turned off all alarms to prevent further disruptions while we work to fix this. Mirvac understands the inconvenience caused and apologises for the disruption.	Closed
19/01/2025	Local resident	Noise complaint regarding construction site alarm going off on the northern side of the site at approximately 9.50pm.	The source of the alarm was the motion sensor on one of our tower cranes. This sensor is a vital safety feature designed to prevent unauthorised access and ensure site safety. Mirvac suspect that the repeated activations may be due to an electrical fault and are investigating the issue thoroughly. As an interim measure, Mirvac have turned off all alarms to prevent further disruptions while we work to fix this. Mirvac understands the inconvenience caused and apologises for the disruption.
