

# Quality Policy Statement

Fiber Glass Systems' (FGS) goal is to be the premier supplier of composite piping, vessels, structural products and tanks for a variety of markets and industries worldwide, providing solutions where corrosion and weight represent significant challenges for our customers. FGS will achieve this goal through continuous organic development, market expansions or new acquisitions and an unflinching resolve to delivering world class performance and quality products.

**Meeting or exceeding the expectations of our customers and all interested parties**

Complying with the Quality Management System and all other applicable requirements

- Improving our customers' economics
- Being an integral part of their strategies

**Improve our Internal Resources and Supply Chain**

Internal: Collectively achieve the goals through

- Individual efforts of each employee
- Provide training and resources

External: Considering our suppliers and their supply chain as an extension of our business. They enhance value by ensuring

- Quality
- Cost effectiveness
- On time delivery

**Continuously Improve the Effectiveness of the QMS**

Establish and communicate

- Quality objectives
- Customer satisfaction
