Preservation Power

Sustainable Energy to Power Local Job Growth

Preservation Power is a New York State economic development program from the New York Power Authority (NYPA) that supports new businesses and drives expansion of existing facilities in the North Country Region. The program distributes 490 megawatts (MW) of competitively priced hydropower generated at NYPA's St. Lawrence-Franklin D. Roosevelt Power Project in Massena. Preservation Power helps business grow in Northern New York with renewable 10-year contracts, long-term cost stability and clean, green hydropower.

Preservation Power is available to qualified businesses in Franklin, Jefferson and St. Lawrence Counties.

Benefits

- **Control** energy expenses
- **Stabilize** long-term costs
- **Easy-to-renew** long-term contracts
- **Open** the door to other NYPA programs

Eligible Areas

NYPA—A Partner in Your Future

NYPA delivers the know-how, programs and innovation to customers across New York State. Our Preservation Power team brings businesses customized service, energy expertise and solutions for all your clean energy needs.

Contact NYPA.

The Preservation Power team is ready to discuss your energy needs.

Easily Renewable Long-Term Contracts

Contracts up to 10-years bring stable energy prices, the confidence to plan ahead and the ability to renew easily.

One-on-One Guidance

You'll work with one of NYPA's expert economic development team members to guide you through the application process, and introduce you to other NYPA products and services for added energy savings.

Eligible Projects

New development or expansion projects in the concept and planning stages that:

- Demonstrate a long-term commitment to the Region
- Have a minimum of 100 kilowatts of new electric load

Projects must begin within one year of the award and must be completed within three years of the award.

Ineligible Projects

- Residential properties
- Retail businesses
- Places of overnight accommodation
- Tourist destinations
- Nonprofit corporations
