

Fred Lampert, New Hartford, NY.
To Whom it May Concern:

Thank you for the work you are doing that will affect the Hinckley Reservoir. It is vital that voices of area residents are heard.

Please, whatever decision is made, please take into consideration the many families that enjoy using the lake for recreational purposes. During the summer the water level should be kept high so that this beautiful lake can be enjoyed for swimming, boating, and other recreational purposes. It means a lot to people like me who have children who enjoy the lake.

Sincerely,
Fred Lampert
